Fundacion Lisette Gomes Stop Abuso Sexual di Mucha, actualmente Mi Voz ta Bo Voz, ta celebra 11 aña

Señora Lisette Gomes a lanta Fundacion Lisette Gomes Stop Abuso Sexual di Mucha 11 aña pasa y recientemente pasa over na e nomber Mi Voz ta Bo Voz cu e intencion di no solamente yuda e victimanan di abuso sexual, pero muchanan y mayornan cu ta den necesidad.

Oficialmente Sra. Gomes a lanta su prome fundacion dia 5 di augustus na aña 2010, un paar di luna despues cu el a cuminsa cu e lucha y a ripara cu e sistema tin hopi buraconan den dje cu no ta yuda famianan of mayornan cu nan yiunan ta pasa den situacion aki.

E ta splica na principio e la lanta e fundacion pa cera e buraconan y haci e caminda mas facil, pa tin un solo liña pa cana e pasonan legal cu mester tuma, pa entre otro haci un denuncia, pa e victima por haya su revision di dokter cu esakinan, y tambe e tempo ey caba nos tabata pensa cu e ley nan tabata hopi suave den e sentencianan cu e huesnan tabata duna, pero tambe guia y ta un sosten pa e mayornan cu ta pasa den esaki. Ta momentonan hopi dificil cu bo ta pasa den dje anto hopi biaha bo no tin e sosten of hende no ta compronde”.

“Pero principalmente pa kibra e tabu. E tabata algo cu ora bo tabata papia di dje na aña 2010 bin ariba, hopi hende tabata mane sinti inconfortabel, nan no kier papia di e tema of nan ta keda keto, sea pa miedo, berguensa of pa algo cu nan tambe por a pasa den dje den pasado y cu nan no kier papia erover”, Sra. Gomes a bisa.

Sra. Gomes ta sinti cu actualmente si tin progreso a wordo haci ariba e tematica aki, specialmente den comunidad. “Nos a haci un investigacion y ainda tin buraconan cu mester wordo cera pero hopefully cu tur e plannan cu nos a scucha cu tin, esaki por drecha”, el a bisa. “Den comunidad tambe nos a ripara, ya nos por bisa cu casonan no a baha, pero si muchanan ta papia. Dus muchanan ta papia e momento cu cosnan ta pasa cu nan, nan ta papia mas lihe y awo nos ta mas open di e tema, mi ta kere hopi mas hende ta consiente, hopi mayornan ta papia cu nan yiunan erover, dus pa mi esey ta un cambio hopi positivo paso e meta final ta pa e mucha por proteha su mes y evita pa esaki por pasa”.

E buraconan, y problema mas grandi cu tin den e tema aki ta pa prueba e abuso sexual. “E palabra di un mucha hopi biaha no ta suficiente pa sostene locual e mes ta bisa cu e a pasa cune, dus e ta hopi dificil, un persona mester ta pendiente porta si e mucha a contabo mes, abo ta bira un testigo na e momento ey, dus comunidad mester ta consiente di esey cu un mucha confiabo, abo ta bira un testigo pasobra e mucha a contabo”, Sra. Gomes ta splica.

Un punto cu mi tin cu Sra. Gomes ta bisa e ta contento toch ta cu tin un programa aworaki pa sex offenders cu ta cay bou di Stichting Reclassering cu e personanan aki tin cu volg y hues ta pone den e sentencia. Pero toch e ta sinti cu mester bin mucho mas pa e parti di e personanan aki cu ta comete e actonan aki. “Mester por tin un siguimento, pa wak con nan ta actua y ki ayudo nan mester si nan mester mas ayudo psicologico of psikiatrico, depende ki problema nan tin, dus mi ta kere esaki ta bay man den man”, e ta splica.

Sra. Gomes ta enfatisa cu prevencion ta e arma mas poderoso cu tin aworaki y cu e ta den man di henter comunidad pa yuda cu esaki. “E ta toca tur hende mane mi ta bin ta bisa e ultimo tempo aki. E ta toca nos tur pa nos preveni esaki pa papia erover pa bin cu cambionan, dus e no ta un hende, un ley, mi ta kere e ta full e comunidad y mi ta kere cu esaki nos por yega hopi leu pa drento di un paar di aña, si nos tin proyectonan di prevencion, cu e lo yuda hopi mas pa baha e casonan”, el a bisa.

Fundacion Mi Voz ta Bo Voz Recien tin paar di aña ta organisa nan proyecto di back to school. Aña pasa tabata esun mas grandi pa e fundacion Sra. Gomes ta splica, caminda nan a yuda 300 mucha. E aña aki e fundacion a organisa e proyecto atrobe y e ricibi un gran registracion di mucha cu mester ayudo.

“Nos a haya un registracion e aña aki di 500 mucha cual ta hopi mes. Registra oficialmente na Fundacion pa nos Comunidad nos tin mas o menos 800 mucha den necesidad y nos a haya registro di 500, dus ainda nos ta bezig ta colecta e donacionnan. E campaña ta bayendo si pero no mesun bon cu aña pasa. Mi sa nos ta den un tempo hopi dificil, nos ta den e aña di recuperacion y awo vooral e casonan subiendo atrobe, pero nos ta haci un yamada na comunidad di Aruba, te cu dia 12 di augustus nos ta keda colecta pa asina nos por bay selecta e muchanan cu ta den mas necesidad pa nos por yuda nan cu nan articulonan di scol”, el a agrega.

Gobierno ta introduci medidanan nobo den e maneho di COVID-19 cu lo drenta na vigor diasabra 7 di augustus

Durante conferencia di prensa di gobierno, Minister President demisionario, Evelyn Wever-Croes a anuncia e medidanan nobo pa e maneho di COVID-19 na Aruba, mirando e aumento drastico di casonan activo pa COVID-19.

Medidanan nobo anuncia pa Min. President demisionario cu lo drenta na vigor diasabra 7 di augustus ta como lo siguiente: tapaboca ta bira obligatorio bek paden tur establecimento, orario di cierre pa tur establecimento ta 12:00 am pa 6:00 am, sin ningun excepcion, prohibicion di area publico, beach y parking lot, tambe ta for di 12:00 am te cu 6:00 am y uso di alcohol ariba propiedad publico ta keda completamente prohibi durante henter dia.

Segun resumen di dia 5 di augustus 83 persona a recupera y un total di 128 caso nobo di COVID-19 a keda registra, di cual 2 ta no-residente y 116 ta residente. E cifranan aki ta representa un positivity rate bou di residente di 30%. Total di casonan activo di COVID-19 ta na 675 y e cantidad di fayecidonan relaciona cu covid ta 111.

Hospital tin 21 persona interna di cual 6 ta den intensive care y 15 ta riba piso general. Datonan di hospital ta mustra cu di e personan hospitalisa cu covid, 19 di nan no tin ningun vacuna y solamente 2 persona tin e prome y e segundo dosis di vacuna. Di e personanan interna den intensive care ningun tin vacuna.

Min. President ta enfatisa e importancia di vacunacion , mirando cu 90% di e personanan admiti den hospital, segun datonan di hospital, no ta vacuna. Y el a informa pueblo tambe cu e variante Delta ta presente pa 80% di e casonan di COVID-19, mustrando cu mayoria di e casonan ta di e variante Delta.

Festival di Buki pa Mucha e aña aki 'Ta loke bo kier ta'

Ayera atardi Biblioteca Nacional di Aruba a duna di conoce cu e aña aki 'Festival di Buki pa Mucha' lo ta na november y un biaha mas su version lo ta den forma virtual.

Asina a afirma Josmar Maduro-Sneek ken ta bibliotecario y coordinado di e Festival di Buki pa Mucha na unda el a informa cu e aña aki nan ta celebrando e di 29 aña di e festival aki.

Lo cual cu nan kier trece dilanti ta e promocion di lesamento, e festival ta e campaña anual mas grandi pa stimula lesamento cerca mucha di Biblioteca Nacional Aruba y e aña aki nan tin como tema 'Ta loke bo kier ta' cu e lema 'Ora mi bira grandi, mi kier bira...' pa asina e muchanan rond di Aruba por completa e frase aki basa den loke nan ta soña di nan profesion den futuro.
Pa cada aña 12 autor di buki pa mucha y ilustrado ta duna un contribucion na e proyecto anual di biblioteca na unda autornan di Hulanda, Corsou y Aruba ta participa, di parti di scolnan di Aruba e interes pa participa ta grandi y e presentacion lo haci den studio di biblioteca y lo sali via television na TeleAruba, via rednan social, scolnan y biblioteca mes.

Autornan y contadonan di cuenta cu biblioteca a invita e aña aki ta Lizzy van Pelt, Annmarie Jongbloed, Petra Heezen (Ilustrado), Jeroen Hoogerwerf y Evelien van Dort for di Hulanda, Mercee Doran y Tio Ali for di Corsou y di Aruba Robby Solognier (Ilustrado), Lorena Boekhoudt-Almary, Maribelle Arends, James Ocalia, y Sarah-Quita Offringa.

E festival ta cuminsa for di dia 8 te 12 di november segun Maduro-Sneek a informa cu scolnan lo participa di manera virtual igual cu aña pasa , e tambe a bisa cu e apertura mes di e festival lo ta dia 5 di november cu lo sali via television entre 6or pa 6or y mey, nan lo duna di conoce e ora precies despues.

Tambe, Maduro-Sneek a señala cu lo tin un tayer e aña aki cu tambe lo ta di forma virtual den cual Mirton Lacle ta encarga di esey hunto cu e presentador Richard Damian y Rosita Abreu.
Giselle Lacle miembro di comision di e festival y persona encarga di actividadnan di merdia na biblioteca a comenta cu nan a haya 50 buki di regalo for di nan sponsor mas grandi, scolnan cu no ta haya buki for di biblioteca como por ehemplo peuterschool y traimerdia e bukinan lo wordo reparti entre nan.

Di loke ta trata e actividadnan di merdia cu Lacle ta dirigi, esey ta wordo organisa for di 8 pa 11 di november y tambe lo wordo presenta via television, e actividadnan lo tin tur dia un autor presente y ta bay tin cierto scolnan no full, segun loke el a menciona.

E buki di e aña aki ta dirigi pa muchanan for di vijfde y zesde klas y te ainda nan no tin un nomber scogi pa e buki, nan lo duna di conoce mas dilanti ora nan lo ta yegando Aruba for di Hulanda.

Cada dia ta birando un reto pa muchanan por haci lesamento, por mira cu e generacion aki ta mas visual cu esun cu ta lesa y di esaki Maduro a expresa cu muchanan awor ta mas visual y e parti di lesamento ta keda na nan como biblioteca cu e tarea pa sigui stimula muchanan pa lesamento y combina esey cu partinan mas visual manera e bukinan cu nan ta presenta tur aña ta trece cune.
Pa e motibo ey cu e aña aki ta di dos biaha cu nan ta haci e festival virtual "nos ta haya hopi bunita e ilustracionnan cu ta wordo poni hunto cu storianan y hasta tambe tin algun cos cu a wordo haci cu por wak imagennan ta move, e ta trece algo nobo y innovativo pa e muchanan" di e manera aki por duna mas animo na e muchanan cu ademas di wak tambe nan tin cu lesa.

Door di pandemia biblioteca a cuminsa pensa pa e festival por sali via television y asina e muchanan por haya chens di wak e despues di scol y nan mayornan tambe pa asina por participa den tempo real.

Uso di LNG den region di Caribe

Un negoshi di hopi aña caba

Dia 26 di februari 2021 Bon Dia Aruba a publica un analisis extenso di e uso di gas natural liquido (LNG) den nos region, tambe en vista di e reciente acuerdo cu gobierno di Aruba y e empresa estatal Refineria di Aruba N.V. a firma acuerdo cu dos compania Mericano, pa reactiva e refineria y trece gas natural den forma liquido (LNG) na Aruba. Mirando e interes renoba pa e topico, a traves di e retiro di dos director na WEB Aruba NV, di cierto forma relaciona cue tema aki, BDA ta publica e articulo un biaha mas, pero den dos parti. Aki ta sigui e analisis regional y separadamente por haya e caso di Aruba mes pa loke ta posible uso di LNG.

Den e plannan di Aruba, banda di operacion usando gas natural na e refineria ta e intencion tambe pa cambia uso di Heavy Fuel Oil (HFO), pa produci energia electrico, pa LNG na WEB Aruba N.V. Tambe partner Eagle LNG ta contempla e posibilidad di establece un centro di distribucion di gas natural na Aruba, pa benta di gas cu otro usuario den region.
A haci uso principalmente di dos estudio reciente riba e tema aki, un ta un informe traha pa Inter-American Development Bank (IDB), titula " Unveiling the Natural Gas Opportunity in the Caribbean", elabora pa Rigoberto Ariel Yépez-García y Fernando Anaya Amenábar, di 2019. E otro ta un publicacion di The Oxford Institute for Energy Studies, di Universidad di Oxford, di november 2017.

Ambos estudio a abarca tanto e region di Caribe pa loke ta e islanan y tambe e paisnan riba continente cu tin costa den Caribe. E islanan ta inclui tanto e islanan independiente como e teritorionan liga na un nacion externo, cual ta Reino Hulandes, Reino Uni, Francia y Estadonan Uni. Paisnan cu no ta forma parti di estudio ta e productornan grandi di gas natural manera Venezuela y Colombia, cu ta bibando otro realidad cu e paisnan cu ta contemplando di ta usuario di gas natural.

Tambe ambos estudio a concentra nan esfuerzonan riba e teritorionan mas grandi, argumentando cu e perspectivanan ta mas faborable pa esakinan, en vista di e realidad cu e desafionan pa e teritorionan mas chikito ta hopi mas grandi, tumando na cuenta e problema entre otro di volumen di e potencial mercado cu e teritorionan aki ta brinda. Den e estudio di IDB a inclui den e estudio Bahamas, Barbados, Belize, Republica Dominicana, Guyana, Haiti, Jamaica, Suriname, y Trinidad & Tobago. Oxford Institute a scoge Republica Dominicana, Puerto Rico, Jamaica, Panama, Barbados, Bermuda, Bahamas y Haiti. Barbados ta e teritorio mas chikito pa loke ta poblacion, cu 286.000 habitante, den ambos estudio. E teritorionan grandi ta p.e. Haiti y Republica Dominicana, ambos cu alrededor di 11 miyon habitante. Asina mes, hasta e teritorionan mas grandi na nivel mundial ta conseidera 'chikito'.

Por constata cu mayoria di e teritorionan mayor den e region ta involucra di algun forma cu desaroyo di posible suministro di gas natural, o tin proyectonan andando caba. Asina Panama ta desaroyando un centro di distribucion di LNG na su costa Caribense, di e compania AES, mientras otro pais tin proyecto di uso di gas natural operando o na caminda pa genera energia electrico. Den e estudionan a enfoca riba potencial demanda, diferente forma di distribucion y logistica pa gas natural, cu ta inclui costo di comparacion di LNG, CNG (Compressed Natural Gas) y uso eventual di tuberia, pa compara e mihor opcionnan pa e teritorionan aki, cu tur ta ser considera mercado chikito ora ta trata di transporta y distribui gas natural na un prijs competitivo.

Den mayoria di e teritorionan, generacion di electricidad ta sucede mas tanto a traves di uso di fuel oil o diesel, mas o menos 74% di e total. Prijs di energia ta varia mas tanto entre e teritorionan cu ta importa combustible y esnan cu ta produci gas (y petroleo) manera Trinidad & Tobago. E pais aki tin un centro di distribucion grandi di LNG. Banda di e pais aki ta solamente Barbados tin un produccion limita di gas. Otro productor den e region ta Venezuela y Colombia, e ultimo aki desde 2016 tin un proyecto di 'regasificacion' (conversion di gas liquido pa gas) na Cartagena, pa importa gas natural y distribui esaki entre e industrianan riba costa Colombiano cu ta usa gas. Dentro di poco aña e plan ta pa Colombia bira un exportador di LNG, cu ta bin di posnan den mar Caribe y riba costa firme. E emision di varios licencia na 2020 ta un indicacion cu esey ta sucede proximamente.

E islanan mayor den norte di Caribe, fuera di Cuba, na e momento aki ta involucra caba den un o mas proyecto, mas tanto pa generacion di electricidad, a base di importacion di gas natural. E proyectonan aki ta mas tanto cu companianan Mericano.

Republica Dominicana: ta genera mas o menos 25% di su energia electrico di central cu ta opera riba gas natural, cu ta drenta desde 2003 via e terminal Andres di e compania Mericano AES. Mas di 50% di electricidad ainda ta produci cu uso di fuel oil o diesel. Tambe tin distribucion di gas natural na usuarionan mas chikito na e pais. Tambe desde 2015 AES ta haci preparacion pa cuminza fungi como un hub di distribucion pa e teritorionan den e region. Ta contempla recarga di barco (chikito) cu entre 10.000 pa 60.000 metro cubico di capacidad. Tambe ta contemplando entrega den region na usuario chikito a traves di 'ISO-container' (cu ta tamaño di un container di 20 pia).

Jamaica: tin plannan pa importa LNG desde 2004 caba, a traves di un acuerdo cu Trinidad & Tobago. Escasez di gas na e ultimo pais aki a para e proyecto, cu tabata destina na suministra e industria di aluminio cu energia electrico. Un gran parti di generacion di electricidad ta depende ainda di uso di HFO o diesel (na 2015: mas di 80%). Un siguiente proyecto di gas natural cu Venezuela a fracasa pasobra Venezuela no por a cumpli. Na 2012 a dicidi cu LNG no tabata un alternativa viable y a dura te na 2015 cu e compania di utilidad JPS a firma un acuerdo cu New Fortress Energy (NFE), un subsidiario di Fortress Investment Group, di Merca, pa suministra gas pa e central Bogue di 120 MW.

Puerto Rico: tin importacion y uso di LNG desde 2000, na e terminal na Peñuelas. Na 2012, a expande e capacidad di regasificacion pa suministra gas na dos planta di 400MW cada un, na Costa Sur Power Plant. Na 2016 e terminal tabata importa 1.25 miyon ton pa aña di LNG. Plannan pa un otro terminal di LNG a keda discuti, sin un decision definitivo. E terminal Aguirre, na 40 miya di e terminal di Peñuelas, a sufri tambe di e dañonan haci pa e horcannan den ultimo añanan, cu obligacion di inverti promer den recuperacion di e infrastructura di distribucion, cu incertidumbre si e di dos terminal lo continua. Tambe tabatin plan pa conecta e terminal nobo via tuberia cu Peñuelas, loke tampoco a prospera te awor. E compania di energia di Puerto Rico, PREPA, tabatin interes pa converti e planta di Aguirre (1.500MW) pa uso di gas natural na lugar di fuel oil, pero esaki no a keda concretisa pa motibo di bancarota di PREPA.

Jeanique de Palm: "Kere semper den bo mes y nunca stop di soña"

Señorita Jeanique de Palm ta un hoben cu tin un carera exitoso den e mundo di beyesa y farandula. Actualmente, cu su 28 aña di edad, Jeanique tin su propio grupo di baile, e ta organisa tayer- y seminarionan pa hobennan di Aruba y tambe ta preparando pa bay representa Aruba den e certamen internacional Reina Hispanoamericana 2021.

Desde januari Jeanique a cuminsa cu preparacion pa e certamen internacional Reina Hispanoamericana 2021, cu lo tuma luga durante luna di october na Bolivia. Tumando diferente tipo di lesnan pa asina prepara lo miho cu e por, Jeanique ta conta nos cu e preparacionnan ta den full swing y ta bayendo hopi bon.

"Nos a tuma e decision eigenlijk bo por bisa dia 31 di december. Dus e prome siman di 2021 nos a start", Jeanique ta conta. "Mi a start di biaha cu loke ta gym, cera loke ta bay ta mi team pa yuda mi, mi ta bezig cu les di public speaking, personal branding, makiyahe, les di cabey y pasarela. Dus mi preparacion ta bayendo den full swing y mi tin cu bisa cu tur e lesnan ta wordo duna door di personanan local mes".

Jeanique lo ta competiendo cu 19 otro candidata di America Latino pa e corona maximo di Reina Hispanoamericana 2021 y lo ta biahando dia 17 di october pa Bolivia. E concurso lo dura dos siman y e anochi final lo ta dia 30 di october.

Cu apenas 3 aña di edad el a participa den su prome certamen di beyesa, Little Miss World Aruba. Esaki tabata e concurso cu a habri e portanan pa Jeanique den e mundo di farandula. Jeanique a baila den diferente grupo di baile pa varios aña y despues cu tempo na 2009 el a dicidi di participa den e certamen Miss Teen Aruba International, caminda el a sali segundo finalista, Miss Teen Flamingo y Miss Teen Model International tambe. Esaki a habri caminda pa su prome concurso internacional.

"Na 2010 mi a haya e oportunidad pa bay representa Aruba afo na certamen Teen Princess of the World, cual a tuma luga na Republica Dominicana. Esey tabata mi prome certamen internacional y entre 15 candidata mi a keda corona como Teen Princess of International y mi a gana Best Costume", Jeanique ta conta. "Na 2013 mi a competi pa reina grandi di Aruba su carnaval representando grupo Champagne y mi a keda como primera finalista tambe".

Dos aña pasa Jeanique a lanta su propio grupo di baile, Dazzling Dancers, siñando muchanan chikito di 4 pa 6 aña y di 7 pa 12 aña desaroya nan talento den e mundo di baile. Y aña pasa, durante pandemia, Jeanique a cuminsa cu Beauty Within Me. "Mi tabata kier a haci algo diferente y pensando kico mi por haci, paso semper bo ta haya diferente camp pa mucha, pero bo no ta haya algo cu ta focus pa e adolescentenan", e ta splica. "Mi a sinta pensa, kico mi por haci cu toch wel e adolescentenan, lo haya leuk y asina mi a bin cu e tema di Beauty Within Me".

"E meta di Beauty within Me ta pa crea hobennan cu ta sigur di nan mes y hobennan cu ta para pa nan mes sin miedo di enfrenta mundo. E parti mas importante no ta e proyecto solamente, pero si no loke cu bo kier trece cu e proyecto, dus bo kier cu despues di e seminario e muchanan por sinti nan mes sigur, nan por sinti cu nan a siña algo cu lo por yuda nan den nan crecemento personal", el a agrega.

Jeanique ta conta cu aña pasa e seminario bay hopi bon pa ta su prome biaha y e tabatin un total di 30 hoben di diferente edad, entre 14 pa 19 aña, cu a ricibi charlanan di diferente topico presenta pa hoben profesionalnan di e comunidad di Aruba.

E ta splica cu e aña aki tabata exitoso tambe treciendo dilanti diferente topico manera personal branding, reforsa autoestima y salud mental, un topico hopi importante den comunidad actualmente. "Mi invita un psycholoog y muchanan cu ta pasando door di esey a bin conta nan storianan tambe".
"Esey ta un topico cu actualmente ta hopi popular y hopi mucha no tin e informacion corecto di esaki, dus mi a haya ta net un bon momento na unda nan por a papia cu un psycholoog, haci nan preguntanan y e psycholoog tambe por a splica nan kico ta loke nan tin cu tene cuenta cune y kico ta e proceso cu nan ta pasando aden aworaki, paso ora bo ta hoben bo ta pasa den diferente cambio y hopi biaha bo mes no ta consciente di esey", el a splica.

Pa Jeanique e satisfaccion mas grandi ta ora cu e ricibi e comentarionan di e mayornan di e muchanan cu ta participa den su seminario bisando cu di algun of otro forma, e ta haci un impacto positivo den e bida di e hobennan.

"Cu e mayor ta wak e cambio den su yiu, pa mi esey ta mas cu un satisfaccion paso na final di dia, e mayor ta esun cu ta convivi cu su yiu y ta conoce su yiu. Den mi caso ta un siman mi ta convivi cu nan, pero si un mayor mira un cambio den un of dos dia despues di diferente seminario, esey pa mi ta mas cu un satisfaccion", Jeanique a bisa.

Perspectiva di LNG pa Aruba

Banda di e resumen extenso di e proyectonan di LNG den nos region den e articulo acompañante, aki atencion pa e puntonan mas importante den e proyecto proponi na Aruba. Ta trata di e componentenan: 1) rehabilitacion di refineria, cu uso di LNG como combustible; 2) suministro di gas pa otro usuario na Aruba, entre nan principalmente WEB Aruba NV; 3) un hub di distribucion di LNG na Aruba, pa nos region.

Rehabilitiacion di e refineria no ta depende di e uso, mas conveniente, di LNG, sino na promer lugar di e viabilidad di e operacion di un refineria den un region cu pa varios decada conoce un exceso di producto petrolero, principalmente gasolin y diesel. Esey tin su motibo, y esey ta cu mayoria di e paisnan mas grandi den nos region, menciona den e articulo aki, tin nan refineria local hustamente pa suministra gasolin y diesel pa uso propio. Si acaso e refineria logra operacion, esey lo implica cu por aumenta e volumen necesario considerablemente, sino ta WEB y algun usuario menor so ta haci uso di LNG.

Cu un produccion di alrededor di 100 MW, y algo mas di capacidad instala, WEB y Aruba ta cay den e categoria menor, cu den ambos estudio referi no a ser considera asina viable. Tin mencion si di e posibilidad di abastecimento cu barco di menor tamaño, pero cu ta haci transporte mas caro, pues menos atractivo. Segun un fuente confiable, e analisis bao gobierno anterior encuanto uso di LNG a resulta negativo, igualmente uso di CNG. LPG lo por ta un opcion, pero ta requeri mas estudio.

Aruba como hub di distribucion den Caribe: di e relato aki ta resulta cu mayoria di pais mas grandi den nos region ya pa varios aña ta trahando riba posible uso di LNG, o a logra di algun forma caba, y por lo tanto tin nan linea di abastecimento caba. Ademas, cu Venezuela y Colombia den cercania cu produccion y exportacion di gas natural, mas e puntonan di distribucion na Panama y Republica Dominicana, ademas di e distancia entre Aruba y mayoria di e islanan den e Arco Norte di Caribe, ta parce dificil pa imagina viabilidad pa un proyecto asina.

Conclusion

Obviamente, e experiencia di uso di LNG den nos region ta mustra cu ta trata di materia compleho, unda nos no a logra trata tur aspecto tampoco. E comparacion di costo por ehemplo, di diferente combinacion di tipo di almacenahe y transporte, segun volumen di consumo y benta. Aki tin varios factor cu por haci cu un aparente bentaha di repente no ta existi. Loke si ta resulta claramente, cu pa haci uso di LNG mas factible, ta indispensable pa conta cu e consumo di un refineria di e tamaño proyecta, pero cu pa varios motibo, ampliamente splica den e medio aki, nos ta considera menos cu probable.

Tampoco ta mira viabilidad pa un hub di distribucion di LNG, den un region cu no ta na punto di descubri LNG como alternativa, pero cu pa hopi aña caba ta den e negoshi aki y cu varios 'outlet' disponible den e region caba.

Ta resta e posibilidadnan di abastece na un manera economico WEB pa produccion di energia, mas un grupo chikito di empresa cu por beneficia di uso di LNG, o CNG. Tambe tin alternativa cu nos tin bao estudio ainda, cu ta e uso di LPG, producto di refinacion di petroleo, cu pa gran parti ta gas propano.

E pregunta ta si den e debate interno, cu a costa dos director nan empleo, ta teniendo suficiente cuenta cu e realidad di e sector den nos region.

Uso di LNG den region di Caribe

(Continuacion di articulo riba pagina 4)

Panama: e pais aki pa un gran parti ta genera electricidad a base di proyectonan hidro-electrico, usando awa pa produci energia liber di combustible fosil, aunke otro parti di electricidad si ta bin di centralnan cu ta opera a base di HFO o diesel, y hasta carbon. Un parti chikito ta bin di proyectonan solar y di biento. E compania AES, operando na Republica Dominicana tambe, ta diseña pa opera un terminal di 180.000 m3 di gas natural, y un planta di energia di 381 MW, conecta riba e red nacional di electricidad di Panama.

Haiti: a cuminza un proyecto di LNG na 2013 cu un terminal cerca di Port-au-Prince, cu almacenahe di 15.000 m3, y facilidad pa carga truck pa distribucion via caretera. Na e momento aki ta dificil pa haya update di e proyecto, pa cual ta supone cu e proyecto ta suspendi o cancela.

Barbados: Un di e teritorionan mas comparable cu Aruba pa loke ta poblacion, aunke ainda casi 2,5 vez mas grandi, tin un produccion limita di petroleo y gas. Na 2016 Barbados a cuminza importa LNG for di Merca den ISO-container. Na 2017 AES Dominicana a firma acuerdo cu Barbados pa suministra LNG desde e terminal Andres na Republica Dominicana. Esaki tambe ta via ISO-container y no ta pa suministra gas pa proyecto mas grandi manera planta di energia.

Bermuda:

Bermuda ta depende practicamente riba HFO/diesel so pa genera elctricidad. Un informe di 2016 ta conclui cu Bermuda por haci uso di gas natural, por ehemplo via transporte cu barco di aprox. 10.000 m3, na un prijs competitivo, compara cu HFO/diesel. Desde e tempo ey no tabatin inicio di proyecto y segun ultimo informe ainda e pais ta considerando si ta acepta e alternativa di usa gas natural na lugar di HFO/diesel.

Bahamas: Na 2003 a aproba un 'environmental impact statement' unda gobierno di Bahamas a duna luz berde pa construccion di un LNG terminal di importacion na Ocean Cay, pa e compania AES Ocean LNG. Tabata anticipa cu AES lo a cuminza construccion di e terminal na 2008, pero oposicion fuerte di gruponan ambiental a logra para e proceso aki. Na mei 2017 AES a propone pa suministra gas natural na Bahams desde terminal di AES na Republica Dominicana.

Trinidad & Tobago: Cu mas di 12 triyon pia cubico (12 tcf) y un produccion di 1,5 biyoncf (2012, di cual mas o menos 60% tabata pa consumo interno, e pais lo mester por a suministra otronan den region di gas natural. Sin embargo, den ultimo añanan produccion a mengua considerablemente, cu e pais buscando alternativa via benta di gas natural Venezolano, pa tene e terminal di distribucion di LNG na bida. Plannnan pa abastece varios teritorio chikito den vecindario no a fructifera, tampoco via tuberia, loke a resulta demasiado costoso.

Abogado di Benny Sevinger, David Kock:

A "malusa confianza" di Sevinger pa comete delito

Diaranson ultimo, mr. David Kock, abogado di politico di AVP, Benny Sevinger, a duna un entrevista na portal online NoticiaCla, den cual el a discuti topiconan relaciona cu detencion y libertad condicional di su cliente. Segun Kock, Sevinger ta implica den e caso pasobra otro personanan a 'malusa su confianza'.

A cuminsa comentando cu maske a duna Sevinger libertad condicional, e ta keda un sospechoso den caso Avestruz. "Si, e ta keda sospechoso", Kock a comenta. "Wak, diabierna siman pasa, mirando e desaroyonan den e caso nos a solicita dos cos: prome pa kita full e detencion, y si no, pa schors e." E diferencia ta cu den e prome, 'e detencion ta caba, e orden di detencion ta termina, y e no por bin back. Y tambe e ora Ministerio Publico no por pone ningun condicion'. Pero na momento cu ta pidi un schorsing, esta un suspension di e detencion, 'e ta keda na bida, pero nos ta pone un rato un banda', y ademas 'ta pone cierto condicionnan', y si no cumpli cu esakinan, fiscal por usa e mesun orden di detencion pa detene e sospechoso back. Kock a indica cu ta mas facil pa un hues suspende un detencion na lugar di cancela esaki, y ademas cu Ministerio Publico a dicidi di no bringa contra un schorsing, pero si insisti riba condicionnan. E restriccionnan cu a pone riba libertad di Sevinger ta cu 'e no mag comete un otro delito; si hues mester cit'e, e mester aparece; y finalmente cu e no por tin contacto cu 15 persona cu ta envolvi den e caso', kendenan ta co-sospechoso, segun Kock'. Kock a indica cu no a kita paspoort di Sevinger ni a pone condicion cu no mag di biaha. Ademas, tin cierto cosnan riba cual OM a pidi Sevinger pa no papia, maske esaki no ta un condicion pa su libertad.

Pa loke ta e caso, Kock a comenta: "Te ainda nos ta keda bisa cu sr. Sevinger no a comete ningun delito. Den nos opinion tambe no tin prueba ainda di delitonan cometi. Sí tin motibo suficiente pa investigacion, pero no pasobra tin investigacion kiermen cu tur persona cu ta wordo investiga ta bay wordo haya culpabel. Tin un grupo grandi di hende cu ta siendo investiga den e caso aki – tin par di nan muy probablemente sí a haci nan mes culpabel den e caso aki. Pero nos mester wak den interes di Sr. Sevinger."

Contestando si den su opinion sí tin hende cu a comete delito den e caso, Kock a bisa cu 'tin varios cos cu a sucede cu nunca no mester a sucede'. El a bisa cu ainda nan no tin bista completo, pasobra te ora cu ta bay presenta e caso na hues nan ta haya e dossier completo. Awor tin pida pida di e informacion pa loke ta trata e otro sospechosonan. Nan tin solamente informacion riba Sevinger.

A puntra Kock pakico, faltando tres siman pa cumpli e sesenta dia di detencion cu ya tabata aproba pa Sevinger, a pidi awor su libertad. Segun

Kock, semper ta evalua desaroyonan den e caso. Detencion di Sevinger a bin riba peticion di OM 'cu ta alega cierto cosnan' y basa riba esaki hues ta dicidi si ta duna libertad of no. Mirando 'cierto desaroyonan' – cu segun Kock e no por duna detaye den publico actualmente – 'nos a considera cu ta tempo cu un detencion no ta hustifica mas' y nan no kier a warda tres siman pa bay hues. "OM ta haya informacion den nan investigacion cu no ta comparti cu nos."

Riba comentarionan di Sevinger, indicando cu el a realisa cu bringa su caso ta bay tin dificultad, a puntra Kock si esaki ta a base di evidencia cu lo por incrimina Sevinger. "Loke tambe a bira cla ta cu el a confia hendenan rond di dje, den trabao, claramente su confiansa a wordo malusa", el a comenta. NoticiaCla a purba di clarifica e ponencia di Kock, comentando si ta e caso cu hende rond di Sevinger a comete e delitonan sin cu e mes tabata involucra, cu a abusa di su confiansa. "A buen entendedor, pocas palabras", el a comenta. El a aclara cu den e caso ta bay nota cu si a comete algun delito, pero riba ken ta bay pone e responsabilidad di esakinan ta bay bira e nucleo di e caso. Sinembargo, como minister, Sevinger lo tabata responsabel pa tur loke por a sucede den su ministerio, pues maske por a 'malusa' di su confiansa, toch e mester para responsabel pa e eventual delitonan den cual el a haya su mes involucra. Ademas, Kock a bisa cu no tin hopi mas evidencia of acusacion a bin riba Sevinger desde su detencion. "Nos opinion den e caso aki no a cambia." Manera nan ta para aworaki, Kock ta sigur cu su cliente ta bay sali inocente. Pero el a comenta sinembargo cu mirando cu nan no tin e dossier completo, nan no por descarta cu ta bay tin informacion cu por cambia su ponencia.

Nota di redaccion
Ta imaginable cu e expresionnan di e abogado di Sevinger lo causa reaccion di e otro implicadonan den e caso, aunke nan tampoco por reacciona publicamente. Interesante lo ta pa mira si den e tempo cu falta ainda pa e caso bin den Corte, Ministerio Publico por confronta e demas participantenan cu e manera cu e sospechoso principal a laga su abogado haci un limpieza total di su caso, tirando tur culpa riba e otro acusadonan, cu lo a haci mal uso di su confianza. Na cada ken e escogencia pa kere semehante splicacion.

Mexico ta bay bira e sede pa negociacionnan entre gobierno y oposicion Venezolano

(AP) — Mexico lo ta e anfitrion di un ronda nobo di negociacion entre gobierno y oposicion di Venezuela, cu Noruega como mediador, segun presidente Andres Manuel Lopez Obrador a bisa ayera.

Sin duna mas detaye, presidente Lopez Obrador a bisa cu Mexico a ofrece di ta e sede pa e negociacionnan, spera pa cuminsa dia 13 di augustus proximo, entre representantenan di presidente Venezolano, Nicolas Maduro, y oposicion.

"Nos ta acepta pasobra nos ta buscando dialogo y acuerdo entre e partidonan", Lopez Obrador a bisa.

Intentonan anterior pa un dialogo na 2019 na Oslo y tambe na Barbados no a logra pone e partidonan yega na un acuerdo.

Na 2017 y 2018, representantenan di gobierno y oposicion Venezolano a tene negociacionnan na Republica Dominicana.

Esakinan tabatin comunidad internacional como mediador. Sinembargo, nan tampoco tabata exitoso den logra pa e partidonan yega na un acuerdo.

Puerto Rico: Ta lansa campaña "Return the Love" pa promove turismo responsabel

(ElNuevoDia) - Despues di diferente incidentenan cu turistanan mey mey di e pandemia di COVID-19, e compania di turismo di Puerto Rico (CTPR), Discover Puerto Rico y Aerostar Airport Holdings, e empresa priva cu ta administra e Airport Internacional Luis Muñoz Marin, a lanza diahuebs e campaña "Return the Love", cu e intencion di promove e tursimo responsabel na e isla.

E concepto creativo di e campaña, cu a wordo crea pa Discover Puerto Rico, ta concentra den e exposicion di mensahenan nan ingles ariba e medidanan di seguridad asocia cu e virus. Por hempel. A traves di diferente imagennan ta bay purba di reenforsa e importancia di e uso di e mondkapje, e distanciamento social y e bon comportacion, incluyendo, segun un comunicado di prensa, "e uso respetuoso di bistimento cu ta wordo usa pa cana ariba e cayanan di e isla y e respet pa e limpiesa y e cuido di e medio ambiente".

E lansamento di e campaña ta coincidi cu e aumento recien di e casonan y hospitalisacionnan pa COVID-19 na e isla, como tambe e regreso di e uso obligatorio di mondkapje den espacionan cera.

"Na medida cu nos ta sigui mira un aumento den e cantidad di turista cu ta bin e isla, mirando e numbernan record den e ultimo lunanan, nos tabata sa cu e mensahe 'Return the Love' tabata un paso importante cu nos tabatin mester di tuma den colaboracion cu CTPR y Aerostar. Mientras nos ta sigui invita turista pa bishita y disfruta e maraviyanan di e isla, no skier pa nan 'debolbe e amor' mustrando Puerto Rico nan miho banda tambe, usando nan mondkapje, practicando distanciamento social y lagando e naturalesa di e isla manera nan a haye", Brad Dean, e principal oficial ehecutivo di Discover Puerto Rico, a establece.

Venezuela: Costo di bida ta aumenta pa motibo di ahuste di prijsnan di bienes y servicionan

(LaPatilla) - E aumento di e prijsnan di bienes y servicionan ta un paar di stap delanta compara cu e ritmo di locual e dollar ta haci den e mercado oficial of paralelo. Pa e poblacion ta comun caba pa check diariamente con e mercado di cambio ta manece na un pais caminda alrededor di 70% di e transaccionnan ta wordo haci den dollar.

Restaurantnan a pone nan menunan den dollar, tiendanan di sapato, panaderianan y carnicerianan ta pone cartulinanan cu e signo di dollar, algo cu ta permiti e poblacion maneha un tiki e stabiidad di e prijsnan, pues debi na e hiperinflacion cu ta existi desde fina di 2017 ta fasil pa perde den tur e ceronan ora cu ta papia di bolivar.

A pesar cu e dollar a bira un alternativa pa e crisis, esaki ta perdiendo poder di compra, motiva pa e variacion di e aumento di inflacion cu ta ariba di esun di tipo di cambio, locual den economia ta significa "un evaluacion di e tipo di cambio real". Calculonan di econometrica ta mustra entre juni di 2019 y juni di e aña aki e poder di compra di e dollar paralelo a cai un 63%. Awe e Venezolanonan mester mas dollar pa paga un mesun recurso.

E economista Nathaly Oronoz di econometrica ta splica cu un di e causanan ta cu e tarifanan di algun servicio, cu tabata gevries pa añanan y cu subsidionan, ta ahustando. Den diferente servicio por observa aumentonan eleva, cu a influi haciendo cu e costo di bida den dollar a bira mas caro. Por ehempel, e ta menciona cu un aña atras un consulta cu dokter tabata costa 20 dollar y awe e ta alrededor di 50 dollar of mas.

E specialista ta indica cu tabata "existi un inflacion stanca" den e sector di servicionan, cu a cuminsa haci un peso ariba e saconan di e hendenan.

Venezuela: Mas di un luna a pasa di e promesa di El Aissami y no a cumpli

(LaPatilla) - Cu e llegada di augustus ta cumpli mas di un luna di e promesa di Tareck El Aissami, encarga di e cartera di petroleo di e regimen di Nicolas Maduro, ken a sigura cu pa final di e luna di juni e filanan na e pomp stacionnan lo disparce y e distribuicion di gasolin lo mehora.

Sinembargo, ainda por mira con e Venezolanonan ta pasa orange largo pafo di e pomp stacionnan of ta protesta pa falta di combustibel.

Un ehempel di esey a pasa diamars 3 di augustus ora cu e conductornan na Barinas a cera pa alrededor di seis ora e caminda cu ta bay direccion Merida, manifestando cu nan tin mas di 15 dia ta warda pa por suministra gasolin na e pomp stacion di Paraparo.

Adalberto Davila, coordinador di e Observatorio di Servicionan Publico den e region, a señala cu e manifestacion a surgi paso den orANAN di marduga personanan a wak cu tabata surti combustibel na otro hendenan cu no tabata den e fila.

E manifestantenan a denuncia cu e surtimento di gasolin na e pomp stacion "ta den discrecion. E benificiadonan ta partidario di e gobierno municipal y siguidornan di e candidatonan pa e eleccionnan interno di PSUV", segun El Pitazo a señala.

Ago parecido e ciudadanonan na Barquisimeto, estado Lara a señala, unda nan ta denuncia cu nan tin 3 pa 4 dia ta warda pa por yena gasolin.

Asina Rafael Quintero a manifesta, ken ta indica cu e tin tres dia ta warda na e pomp stacion di e centro comercial Churun Meru, na banda oost di Barquisimeto. A pesar cu un truck di gasolin a yega pa despacha, "e fila no a ni move", el a bisa.

Te cu aworaki, ni e minister ni ningun otro representante di e gobierno Venezolano a duna un declaracion ariba esaki.

Mas cu solamente un Radio Stacion

MAGIC FM 23 aña den aire a siña nos di ta mas cu solamente un vehiculo di informacion y entretenimento. Awendia Radio diffusion a bira mas un fuente di inspiracion y motivacion. Erin Croes a refleha riba e añanan di existencia di e Radio emisora cu a pasa door di evoluciona interesante den e ultimo añanan. Nos a cuminsa mas grandi den tamaño di localidad, cu mas empleado, pero mas tempo a pasa, nos a nota cu tur esaki a bira obsoleto, pues awendia no mester di edificio grandi of cantidad enorme di empleado. Tecnologia a facilita hopi cos cu e ser humano antes mester a haci den un forma manual. Pesey nos ta constata cu por ehempel banconan of companianan grandi tambe a bay traha sea virtual of mas computarisa. Loke si nos ta kere firmemente aden ta e contacto humano, brindando e calor humano pues di hende pa hende cu ta keda semper necesario. Loke si nos tin ta coolaboradornan den tur aspecto, kiermen e trabou den e sentido profesional y completo ta solido.

Cos a cambia hopi

Awendia cualkier entrevista por tuma luga virtual, loke antes ta tuma full un set-up por sosode via remote y virtualmente. E cambio ey den

e forma pa haci nos trabou a keda ahusta y adapta pero manteniendo nos filosofia y originalidad.

Pandemia a siña nos asina hopi cos

Traha for di cas, a bira normal nobo, inverti den tecnologia solido, bini cu programacionnan mas motivador. Mundo ta yena di cosnan negativo caba, pues nos mester purba ta mas un fuente di speransa y inspiracion pa nos audiencia. Durante e pandemia nos a verhuis nos studio principal na nos cas y a introduci e slogan 'MAGIC brings relieve'. Tur Dj y locutor a set up un mini studio na nan cas y ta haci nan shownan virtualmente. For di Reno Irausquin, Vibes, Dj Quality, Campo y Irving. Sin laga afo, Pica Show, T-Time e.o.

Motivational package

Nos a caba di introduci un 'Motivational Package' pa nos amigonan den comercio cu tambe ta desea di ta parti di e jornada di motivacion aki. E combinacion di ta un medio di musica, entretene nos oyentenan cu premionan nice semper, pero mas cu tur ta un fuente confiabel di informacion. Bo Radio Stacion di motivacion!

E rol di medionan di comunicacion awor ta mas cu solamente informa, educa, entretene. Awor mester pone mas atencion na un contenido cu mas positivismo y inspiracion.

Nos ta gradici cada un di nos amigonan den comercio cu a sostene nos e ultimo 23 añanan y esunnan cu lo sigui sostene nos media semper.

Cambia e desaroyo socio-economico na fabor di e trahador

Prome asunto y esun mas esencial pa e trahador ta cu mester revisa e desaroyo socio-economico na Aruba. 2020 y 2021 ta añanan di pandemia, añanan perdi y no ta den e tabel aki. E indicadornan economico, ta duna e resultado di e desaroyo socio-economico pa cada aña y e totalidad di 1986 pa 2019, ta duna resultado di e politica cu a ser hiba den Status Aparte.

E canasta familiar a ser reconstrui a base di inflacion 1986-1990.
E suma di e canasta familiar ta nifica cu un pareha cu 2 yiu mester tin pa sobrevivi sin cay den pobreza.
E cifranan di e Indicadornan Economico a ser saca for di relatonan anual di Banco Central y tambe di CBS.

No tin cifranan oficial tocante desaroyo di salarionan na Aruba. Tin un indicacion fuerte cu e aumentonan di salario a sigui e aumento percentual di SalMin (Salario minimo).
Pa e salarionan di Empleadonan Publico y Trahadornan den Sector Publico, menos e nv-nan estatal, no tin cifra conoci. Tabatin periodonan cu no tabatin indexering y tur cos ta mustra cu e aumentonan den percentahe ta menos den comparacion cu e aumento di percentahenan di subimento di SalMin.
Na 1986, SalMin tabata 70% di e canasta familiar, e a baha te na 35%, awendia. Di con?
Si nos Sali for di e punto di bista cu e Canasta familiar a a ser construi a base di inflacion, nos por conclui cu e inflacion total tambe mester ta banda di 220%.
Si salmin a crece banda di 90%, ta mustra cu e Trahado no a ricibi, ni 50% di inflacion, ni e crecemento di e Canasta familiar, cu ta + 220%.

Corda pa pensa ariba e parti husto di loke e Trahador a yuda produci, esta e PIB pa habitante, 325%. Nos mester conclui cu e explotación di Trahador tabata barbaro.

Tambe ta bisto e ganashinan miyonario di e empresarionan.
Nos mester constata cu loke a sosode di 1986 pa 2019, mester ser considera un desaroyo politico a la Neo-liberalismo, cual ta na fabor di e emprearionan grandi y pa hiba mayoria di Trahadornan den pobreza.

Un asunto cu sigur mester ser analisa y investiga severamente ta e cifranan di ganashi cu e cadenanan di Hotel cu base na USA ta duna. Turistanan ta paga nan cambernan di estadia online na e cadenanan, pafor di Aruba. E cadenanan di Hotelnan sigur ta duna cifranan abao. Pues e explotacion di Trahador lo ta mas barbaro.

Gobernacion na Aruba mester pone un fin na e politica Neo-liberal unda ta tene cuenta solamente cu e empresarionan, e elitenan. Tradornan ta ser lubida!!!

Pues despues di e splicacion amplio pa mi esaki ta e punto mas esencial cu e gobernacion nobo mester bay atende, esta pa cuminsa cu un maneho nobo pa corregi e desaroyo malo aki pa e trahador.

Nos politiconan mester comprende cu Trahadornan ta forma e parti mas grandi di e poblacion Arubiano.

E proximo simannan, pa tur fin di siman mi ta purba di trece un comunicado cu un of mas asunto importante pa e Trahador, cualnan na mi opinion, mester ser atendi dor di e gobierno nobo.

Prome Minister Evelyn Wever-Croes:

Reunion cu stakeholders en conexion cu formacion di gabinete Wever-Croes II

E reunion cu a wordo cubri ta economia, salubridad y siguridad,Diahuebs 5 di augustus a sigui e ultimo reunionnan cu stakeholders pa e siman aki den cuadro cu formacion di Gabinete Wever-Croes II cu Partido MEP y Raiz riba e tema di economia, salubridad y siguridad. Dialuna e reunionnan lo sigui cu varios instituto den nos comunidad. Prome Minister Evelyn Wever-Croes a indica un biaha mas cu e reunionnan a bay bon y den bon ambiente.

E Asociacion di Bankeronan di Aruba a trece dilanti e retonan cu banconan ta enfrenta cu e reglanan di supervision cu nan tin cu hopi biaha nan mester haci investigacionnan mas profundo riba nan clientenan y nan lo desea di mira esaki agilisa. E reglanan di supervision na Aruba ta hopi estricto berdad y ta tarda hopi pa habri cuentanan na banco. Pero e nomber di Aruba ta hopi solido y positivo den e mundo bancario. Pero lo sinta cu esnan concerni pa purba agilisa esaki. A delibera tambe riba recuperacion economico di nos pais y cu esaki lo saca nos for di problemanan financiero, lo crea cupo di empleo, lo bay percura pa nos hendenan no mester depende mas di FASE, loonsubsidie etc. Pa cu nos recuperacion tin hopi factor ta hunga un rol y un di nan ta e servicio cu banco ta duna. Nos lo sigui reuni den futuro ora cu e gobierno ta forma ya cu un di e prioridadnan ta pa nos tin un sistema bancario cu ta traha bon y lihe y cu ta solido y confiabel.

E di dos reunion tawata cu Stichting Verstandelijke Handicappen na Aruba cu ta e fundacion cu ta atende cu nos hendenan special. A papia di e subsidio cu a wordo corta aña pasa y esfuersonan cu Gobierno ta haciendo pa reestablece parti di e subsidionan, e retonan cu nan tin pa nan por brinda e cuido necesario. Despues di e reunion, sr. Reint Schutter a duna su declaracion na prensa.

Riba e tema di salubridad, a reuni tambe cu un organisacion di importadonan di remedi. Den cuadro di gastonan di salubridad kier purba yega na metodonan cu ta baha e gastonan di salubridad y di remedy y no e calidad di remedy. Si logra esaki, kizas lo por duna otro servicionan cu AZV no por duna aworakinan. Hopi ideanan a bin dilanti di con pa cambia e sistema pa haña remedi di calidad y na un prijs mas barata.

Stichting BOB ta encarga pa haci investigacion den nos comunidad riba e incidencia di cancer di pecho. E fundacion a trece dilanti nan retonan y nan a comenta cu nan kier amplia e investigacion na otro tipo di cancer tambe manera di tripa, matris, prostaat y di cuero. Mirando cu semper ta papia di gastonan di cuido, si por preveni e malesanan aki e lo ta un solucion pa tur hende. Despues di a reuni cu Formador, Sr Stefan Lucas a duna un declaracion na prensa.

CMMA, Coordinatie Mensen Handel Mensen Smokkelen a duna un splicacion di e tareanan cu nan tin. Nan a duna e indicacionnan caminda cu tin hende ta wordo treci di exterior, entre otro di Venezuela, kita nan documentonan, kita nan libertad, nan ta wordo paga un suma hopi abou y ta wordo exploita. Esaki ta abuso di hende y violacion di reglanan di Mensen Handel, Mensen Smokkel. Nan a comenta cu antes e enfasis tabata hopi riba hende muhe jong den e industria di sex pero awor e enfasis ta riba hende homber den e industria di construccion.
Nan a trece padilanti tur nan esfuersonan cu nan ta haciendo y nan campaña nacional pa asina tur hende por ta mas alerta kico ta Mensen Handel, Mensen Smokkel. Nan ta bay cuminsa cu proyectonan na scolnan pasobra nos ta kere cu ta hopi importante pa di chikito caba, muchanan of hobennan concoce e señalnan cu mester para keto na

dje. Despues di e reunionan, Sra Jeanette Baars y Angela Persuad a duna informacion na prensa.

"Hopi punto a bin dilanti den e reunionnan di diahuebs. Varios di e puntonan aki ta wordo considera den e acuerdo di gobernacion y demas punto lo tene cuenta cu ne unabes tin un Minister encarga pa por bay mas extenso cu e diferente instancianan aki. Mi ta gradici tur cu a participa na e reunionnan y mi ta gradici prensa pa e tempo y dedicacion pa yuda informa nos comunidad cu e informacion cu e stakeholders ta comparti", Prome Minister Evelyn Wever-Croes a duna di conoce.

Fin di un era: Messi no ta keda cu Barcelona

(AP) — Tempo di Lionel Messi na Barcelona a yega su final. Barcelona a nuncia ayera cu Messi no ta bay keda cu e club, bisando cu e regulacionnan financiero di e liga ta hacie imposibel pa firma e strea Argentino na un contract nobo.

E ta bandonando e club despues di 17 temporada exitoso den cual el a pusha e club Catalan den gloria, yudando e gana cantidad di titulo internacional y domestico desde su debut tempo cu e tabata adolescente.

Barcelona a bisa den un declaracion cu a logra yega na un acuerdo pa un contract nobo, pero 'obstaculo' financiero a hacie imposibel pa e hungado keda cu e club.
"A pesar cu e club y e hungador a yega na un acuerdo y di nan intencion cla pa firma un contract nobo awe, esaki no por a sucede pa motibo di obstaculo financiero y structural", e club a bisa.

A culpa 'regulacionnan di liga Spaño' pa no permiti e club firma un contract nobo cu e hungado. Su contract anterior a caduca riba dia 30 di juni.
"Como resultado di e situacion aki, Messi no ta bay keda na FC Barcelona", e club a bisa. "Ambos partido ta lamenta profundamente cu na final no por cumpli cu e deseonan di e hungador y e club."
FC Barcelona a expresa su gratitud na Messi y ta dese'e lo miho den futuro.

Messi anteriormente a pidi pa bandona Barcelona gratis pa fin di ultimo temporada, pero su solicitud a wordo nenga pa e presidente e tempo ey, Josep Bartomeu. Joan Laporta a tuma over e presidencia y a parce di a convence Messi pa keda. Pero Laporta a bisa recientemente cu e club tabatin problema pa paga salario di e hungado – hasta cu e reduccionnan grandi cu Messi a acepta – dentro di e limite salarial controla pa e liga. Den e contract anterior, firma na 2017, Messi segun reportenan tabata gana 138 miyon euro pa temporada.

E Argentino no a duna un declaracion publico inmediato. Barcelona a elimina Messi for di su lista di e team riba website di e club tiki despues di e anuncio y a post un video riba su cuentanan di Twitter.

Messi ta bandonando e club despues di a gna 35 titulo. El a yuda e club gana e Champions League cuatro biaha, Liga Spaño dies biaha, Copa del Rey siete biaha y e Super Cup Spaño ocho biaha. Cu e club, Messi a gana su mes un record di seis premio Ballon d'Or como e hungado top di mundo. E ta e anotador mas grandi den historia di e team cu 672 gol den 778 presentacion, y e anotador mas grandi den liga Spaño cu 474 gol den 520 partido. Tambe e ta e hungado cu mas partido pa e club.

Messi a yega Barcelona cu 13 aña di edad, tempo cu e y su famia a bin Spaña pa purba su suerte den academia hubenil di Barcelona. El a haci su debut oficial dia 16 di augustus 2004, y dos aña despues a yuda e club gana su prome Champions League den un team lidera pa Ronaldinho.

Responsabilidad pa financiamento di facilidadnan deportivo

Reparticion di responsabilidad financiero pa cu Deporte

Contrario na e impresion cu hopi ta carga, desde 2012 mantencion di facilidadnan deportivo ta responsabilidad di Gobierno di Aruba hunto cu FFD. Actualmente, gobierno ta subsidiando Fundacion Facilidadnan Deportivo (FFD) cu 2.95 miyon florin pa aña pa mantene nos facilidadnan deportivo.

FLPD mientras tanto a compromete su mes pa contribui na nos federacionnan deportivo via Stichting Sportsubsidie Aruba ("SSA"). Pa por bin na remarca pa subsidio, federacionnan deportivo ta haci un peticion cerca SSA. E peticion mester ta pa proyecto/propositonan specifico y e federacion mester cumpli cu tur protocol y rekisito di SSA.

Falta di fondo
Canadian Bank Note ("CBN") y Canadian Bank Note Aruba ("CBNA") cu ta opera Lotto, e Loteria di Aruba, tabata obheto di varios informe incorecto di parti di mandatarionan recientemente. Den medionan di comunicacion ta wordo treci cu CBN ta cobra demasiado pa su servicionan y cu no ta sobra fondo pa mantencion di facilidad deportivo.
Den un relato publica siman pasa diabierna, CBN y CBNA a duna claridad riba con e fondonan genera pa Lotto ta wordo reparti den realidad.

Mientras cu mantencion di facilidadnan deportivo ta responsabilidad di gobierno y FFD na e momentonan aki, CBN y CBNA tin simpatia pa e dificultadnan cu ta enfrentando riba e tereno aki. E 2.95 miyon cu FFD ta conta cune tur aña kizas no ta suficiente y por tin maneranan pa yega na mas fondo pa e proposito aki y CBN y CBNA ta keda dispuesto pa dialoga riba esaki cu cualkier gobierno.

Dialogo
Na varios ocasion CBN y CBNA a trata di presenta solucion pa e problema aki na e gobierno demisionario. Tin posibilidad pa e loteria genera fondo adicional pa deporte en general, pero mester dialoga y colabora pa por realisa esaki. Lastimamente e gobierno demisionario no tawata disponibel pa dialoga riba e topico aki desde 2018, a pesar di hopi intento di banda di CBN y CBNA. CBN y CBNA ta mantene cu dialogo y colaboracion ta e mihor manera pa sirbi interes di nos deportistanan y ta spera cu e proximo gobierno ta habri pa esaki.

Variante Delta ta pone presion riba China pa cambia strategia di 'Cero Tolerancia'

(AP) - E variante delta ta poniendo presion ariba di China su strategia caro di pone ciudadnan den isolacion, causando advertencia cu lidernan Chino cu tabata sigur cu nan lo por mantene coronavirus fuera di e pais mester un plan menos destructivo.

Den bista cu e variante mas contagioso delta ta pushando lidernan di Merca, Australia y cierto otro camindanan bolbe bek cu restriccionnan pa cu covid, President Xi Jinping su Gobierno ta luchando contra di e brote mas serio desde aña pasa su brote na Wuhan. E partido Comunista su declaracion ta revivando tactinanan pa cera China completamente. Acceso na un ciudad di 1,5 miyon hende a ser corta, buelo nan a ser cancela y testnan den cantidadnan grandi a ser ordena.

E strategia di 'cero tolerancia' di pone tur caso den cuarentena y purba di blokia infeccionnan nobo di fuera di e pais a yuda contene e brote di aña pasa, y a mantene China liber di e virus pa un bon tempo. Sinembargo, e impacto cu e tin riba e bida di trabao di e bida di miyones di hende ta causando advertencia cu China mester siña controla e virus sin keda cera e economia y e sociedad.

Zhang Wenhong, un dokter di Shanghai ken a genera prominencia durante e brote na Wuahn, a sugeri den un publicacion riba rednan social cu China su strategia lo por cambia. "Definitivamente nos mester siña mas" di e brote actual, Wenhong a expera, yamando esaki un test di stress pa e nacion.

"E mundo mester sina con pa existi conhuntamente cu e vrisu," Zhang a publica, ken tin 3 miyon siguidonan riba e red social exclusivamente Asiatico Weibo.

China su control lo ser pone den prueba na momento cu miles di atleta, reporteronan y otronan bini pa e Olimpiada di Beijing na februari. E partido den mando actualmente lo enfrenta cambio den liderazgo politico den final di 2022, pa cual lidernan kier miho condicionnan economico.

Aña pasa, China a sera pa mayoria di e mundo su di dos economia mas grandi, y a corta casi tur acceso na ciudadnan cu un totalidad di 60 miyon hende, tacticanan cual a ser imita na un escala mas abao pa otro diferente Gobiernonan den desde Asia pa Merca. Esaki a causa China su contraccion economico mas doloroso den 5 decada, pero Beijing a logra di permiti negoshinan y biahenan domestico sigui tuma luga den maart 2020.

E infeccionnan nobo, den hopi diferente persona cu ya a ser vacuna, a pone preocupacion den mercadonan financiero globalmente, cual ta preocupa cu Beijing su respuesta lo por interferi cu e cadena di produccion.

China lo mester cambia nan strategia di crea barera entre infeccion entre comunidadnan, pa cuminsa instiga y motiva mas vacunacion y duna mas velocidad na e tratamento di e personanan infecta mientras cu ta mantene e permiso pa negoshinan y biahe internacional segun Xi Chen, un economista di salud na Yale School of Public Health. El a bisa cu e pais tin mester di acceso na e lista completo di vacuna, incluyendo permiso pa ricibi Alemania su vacuna di BioNTech.

"Mi no ta kere cu e strategia di 'Cero Tolerancia' ta sostenibel." Chen a comenta. "Te hasta si bo por cera tur region na China, hendenan lo sigui muri, y te hasta mas lo muri pa motibo di hamber y perdida di trabao."

Ta preparando pa cuminsa muda den e parti renoba di edificio principal

Hospital cla pa muda pa start cu siguiente fase

Dr. Horacio E. Oduber Hospital ta den pleno preparacion pa muda varios departamento pa asina por sigui cu renobacion den e hala oost di e edificio principal, esta Toren A.

Lo cuminsa proximamente pa muda diferente departamento na e parti ya renoba.E proceso aki lo ta uno basta complica yena cu reto, pero Hospital ta sumamente contento cu e cambio positivo ya cu e localidad nobo tin hopi bentaha pa e pashent; e ta mas amplio, priva y empleadonan por traha na un manera mas eficiente cu aparatonan y cama mas nobo.

E transiciondi departamentonanta bin cu algun reto. Durante mudamento mester tene sigur cuenta pa minimalisa molester pe pashent, bishitante y tambe e trahado. Un bon planning ta esencial den esaki, entre otro e transport di material, e necesidadnan riba tereno boticario, IT, interieur, issuesnan tecnico y mas.

Despues cu logra muda e diferente departamentonan necesario y logra haci e otro banda bashi, por bisa cu ta yega na e fase final di renobacion di nos Hospital. Lo renoba e hala oost y alabes lo sigui cu e entrada principal y asina e"scope" completo di e proyecto grandi aki ta keda cla.

Trahando na un manera responsabel y sigur p'e pashentnan ta un prioridad fundamental pa e institucion aki.

Na final di e proyecto, Hospital lo por brinda mas y miho cuido na tur pashent.

Apple ta bay scan iPhone na Merca pa imagen di abuso sexual di mucha

(AP) – Apple a revela plan pa scan celularnan iPhone na Merca pa imagennan di abuso sexual di mucha, generando aplauso di gruponan di proteccion di mucha, pero impulsando preocupacion entre algun investigador di seguridad cu gobiernonan buscando pa vigila nan ciudadanonan por malusa e sistema.

Apple a bisa cu su app di mensahe ta bay usa aprendisahe di mashin den e aparato pa adverti riba contenido sensitivo sin haci comunicacionnan priva legibel pa e compania. E herment cu Apple ta yama 'neuralMatch' ta bay detecta imagennan conoci di abuso sexual di mucha sin decifra e mensahenan di hende. Si haya un match, e imagen ta bay ta revisa pa un humano cu por notifica agencianan di cumplimento di ley si ta necesario.

Pero investigadornan ta bisa cu por usa e herment pa otro propositonan, manera vigilancia di gobierno riba disidente- of manifestantenan.

Matthew Green di Johns Hopkins, un investigador top di criptografia, tabata preocupa cu por us'e pa incrimina personanan inocente door di manda nan imagennan malicioso diseña pa mustra como match pa pornografia infantil, gañando aligoritmo di Apple y alertando agencianan di cumplimento di ley – esencialmente incriminando hende inocente. "Investigadornan a logra haci esaki facilmente", el a bisa.

Companianan tecnologico incluyendo Microsoft, Google, Facebook y otronan pa varios aña ta comparti 'hash lists' di imgennan conoci di abuso sexual di mucha. Apple tambe ta scan documentonan warda den su servicio iCloud, cu no ta codifica mesun sigur cu su mensahenan, pa imagennan asina.

Algun hende ta bisa cu e tecnologia aki ta vulnerabel pa presion politico den estadonan autoritario manera China. "Kico ta pasa ora gobierno Chines ta bisa 'aki tin un lista di documentonan cu nos kier pa bo scan'", Green a bisa. "Apple ta bisa no? Mi ta spera nan bisa no, pero nan tecnologia no ta bay bisa no."

E compania ta bao presion di gobiernonan y agencianan di cumplimento di ley pa permiti vigilancia di data codifica (encrypted). Bin cu medidanan di seguridad a rekeri pa Apple desempeña un acto di balans delicado entre accion riba explotacion di mucha mientras ta mantene su compromiso di pergil halto pa protege e privacidad di su usuarionan.

Apple ta kere cu a logra e hazaña aki cu tecnologia cu a desaroya den consulta cu varios criptografo prominente, incluyendo profesor di Universidad di Stanford, Dan Boneh, kende su trabao den e sector a gan'e un Premio Turing, considera como e version tecnologico di un Premio Nobel.

E cientifico di computer kende mas cu un decada atras a inventa PhotoDNA, e tecnologia cu cumplimento di ley ta usa pa identifica pornografia infantil online, a reconoce e potencial pa abuso den e sistema di Apple, pero a bisa cu esaki ta surpasa pa e imperativo di combati abuso sexual di mucha.

"E ta posibel? Claro. Pero ta algo cu mi ta preocupa cune? No", segun Hany Farid, un investigador na universidad di California, Berkeley, kende ta argumetna cu cantidad di otro programa diseña pa sigura aparatonan di varios menasa no a mira 'e tipo di critica aki'. Por ehemplo, WhatsApp ta duna usuarionan codificacion di cada banda pa protege nan privacidad, pero ta usa un sistema pa detecta malware y adverti usuarionan pa no click riba linknan dañino.

Apple tabata un di e prome companianan mayor pa adopta codificacion di cada banda, den cual ta codifica mensahenan pa asina solamente esun cu ta mand'e y ricibie por lesa nan. Sinembargo, agencianan di cumplimento di ley pa largo a presiona pa acceso na e informacion aki pa asina investiga crimennan manera terorismo of explotacion sexual di mucha.

"E expansion di seguridad di Apple pa mucha ta un game changer", segun John Clark, presidente y CEO di Centro Nacional pa Mucha Desapareci y Explota, a bisa den un declaracion. "Cu asina hopi hende usando productonan di Apple, e medidanan di seguridad nobo aki tin potencial di salba bida di muchanan cu ta siendo atrai online y siendo circula den material di abuso sexual di mucha."

Julia Cordua, CEO di Thorn, a bisa cu e tecnologia di Apple ta balansa 'e necesidad pa privacidad cu seguridad digital pa mucha'. Thorn, un nonprofit funda pa Demi Moore y Ashton Kutcher, ta usa tecnologia pa yuda protege muchanan di abuso sexual door di identifica victima y traha cu plataformanan tecnologico.

Sostenedornan di criptomoneda ta pusha pa amienda riba ley di infrastructura

(CNET) – Varios compania di criptomoneda prominente y su sostenedornan, incluyendo compania di venture capital, Andreessen Horowitz, compania di pago Square, y grupo di industria Blockchain Association, ta poniendo nan sosten tras di un amienda na e ley di infrastructura di $1 triyon cu tin como meta clarifica un provision relaciona na impuesto riba transaccionnan di criptomoneda.

E amienda bipartisano, entrega diaranson pa senadornan Ron Wyden, Cynthia Lummis y Pat Toomey, lo aclaria lenguahe den e ley relaciona cu 'brokernan' di criptomoneda pa esaki inclui solamente hende cu ta 'conduci transaccionnan riba intercambionan unda consumidornan ta cumpra, bende of intercambia activonan digital' y no ta rekeri reporta informacion pa otro actividadnan, manera mina, desaroya tecnologia di blockchain, of construi cartera di hardware.

"Nos ta comparti e preocupacion di e senadornan cu e provision existente cu ta regarda e tarifanan riba transaccionnan di criptomoneda ta demasiado amplio y ta bay abarca no-intermediarionan, manera esnan cu ta validad rednan y desaroyadornan di software, y lo horca innovacion door di impone loke lo ta un rekisito di reportahe cu cual no por traha riba e gruponan aki", segun un carta manda na lider di mayoria den Senado, Chuck Schumer, y lider di minoria Mitch McConnel, for di Marc Andreessen, Ben Horowitz y otro partnernan di e compania di venture capital. Nan a agrega cu e amienda ta e 'solucion corecto pa adresa e preocupacionnan aki den un manera simple'.

E provision di criptoimpuesto a aparece den e ley di infrastructura como un manera pa contraresta $28 biyon di e casi $550 biyon den e pakete di gasto nobo riba caminda, brug y otro proyecto di infrastructura, segun Roll Call. E legislacion ta alinea cu cambionan anteriormente proponi pa Tesoro Mericano, yamando pa transaccionnan involucrando mas di $10mil den criptomoneda mester reporta na IRS. Esaki ta e mesun limite di reporte pa depositonan di cash.

"Nos amienda ta haci cla cu reportahe no ta aplica na individuonan desaroyando tecnologia y carteranan di block chain", Wyden a bisa den un comunicado di prensa. "Esaki ta bay protege innovacion Mericano mientras na mes momento ta sigura cu esnan cu ta cumpra y bende criptomoneda paga e impuestonan cu nan ta debe caba."

E ley di infrastructura por bay pa votacion e siman aki caba, dependiendo riba e debate tocante amiendanan den Senado. Si e pasa, e ta bay pa Congreso pa amiendanan adicional.

Robert Durst lo bira testigo riba podium den su mesun caso

(AP) - Robert Durst lo mester warda te cu por lo menos dialuna pa por para den su propio defensa, como un final trempan inespera na e corte a trece otro retraso na un huicio di asesinato cu a mira varios retraso caba.

E famoso trahado den benta di propiedad cu tin varios diferente pelicula traha cu su persona como inspiracion di New York, a ser premira di bira testigo cu lo testigua na su fabor den su mesun caso di asesinato cuminsando diahuebs, pero Hues Mark E. Windham a bisa na mita di e dia cu e huicio a ser para y lo continua riba dialuna mainta, pa motibo di un problema cu un di e huradonan.

Durst, di 78 aña di edad a ser acusa di asesina su miho amiga Susan Berman, ken a ser fatalmente tira den su cas na aña 2000. El a ser aresta den aña 2015, y finalmente su huicio a cuminsa den comienso di aña 2020, pero pa motibo di e pandemia di coronavirus, a forsa e caso y huicio ser posponi pa mas di un aña prome cu el a sigui den mei.

E fiscalnan a 'rest this case' anteriormente den e siman aki. E prome di e dos testigonan cu defensa tin planea, experto den memoria falso Elizabeth Loftus, te ainda tabata pasando den examinacion ora cu e huicio a ser para, y lo regresa e podium cu Durst planea pa subi despues di su persona.

E ta considera un movida sumamente riesgoso pa un abogado di defensa pone su propio cliente riba e podium, y expone nan na un examinacion potencialmente dañino, y unda cu e Fifth Amendments su proteccion contra di incriminacion propio ta duna permiso na e defensa pa por evita esaki.

Pero esaki lo ta e di dos biaha cu Durst y su abogado Dick DeGuerin a haci esaki, El a funciona e prome biaha. DeGuerin a yama Durst pa testigua durante e huicio den aña 2003 pa e caso di asesinato na Texas, unda cu su culpabilidad a ser descarta.

Durst a ser acusa di a asesina su bisiña na Galveston yama Morris Black mientras cu e tabata sconde den su cas despues di a mata Berman. El a testigua cu Black a ser accidentalmente mata durante Black su lucha pa por drenta Durst su cas cu un arma di candela. Durst a admiti cu el a corta, y deshaci di Black su curpa. Despues el a declara su mes culpabel pa purba di manipula evidencia, pero e hurado a declara cu Durst no tabata culpabel di asesinato den e caso di Morris Black.

Yiu muhe di artista Fetty Wap ta fayece despues di lucha cu su salud

(TMZ) - E artista Fetty Wap su yiu muhe a fayece despues di un lucha contra problemanan di salud cu e ta batayando for di nacemento fuentenan ta conta TMZ.

E artista y su ex pareha Lisa Pembroke su yiu muhe di 4 aña di edad, Lauren, a muri di un arrythmia cardiaco fatal pa motibo di complicacionnan y abnormalidadnan cardiaco segun e certificado di morto.

Esencialmente, esaki kiermen cu e tabatin e problemanan di curason aki for di su nacemento. E batimento iregular di su curason cual ta resultado di e problemanan aki, ta loke a mata e hoben aki.

Segun e certificado di fayecimento obteni pa TMZ, Lauren a fayece 2 luna pasa, riba dia 24 di juni di e aña aki na su cas den Riverdale, Georgia.

Ambos Fetty Wap y Lisa a publica tributonan na su yiu muhe durante e siman pasa, cual tabata e prome biaha cu nan a definitivamente confirma, y comparti e noticia cu e publico, y tur nan siguidonan.

Fetty Wap a implica cu Lauren a fayece algun siman pasa, durante su presentacion na Rolling Loud, na momento cu el a dedica su presentacion na su yiu muhe.

Fetty Wap tin un otro yiu muhe cu tambe a tene un experiencia cerca di morto, pero a logra sobrevivi. Su otro yiu muhe Alaiya, mester a ricibi operacion di emergencia den januari 2021, un procedura cu a bay hopi bon.

drs. Mervin Wyatt-Ras:

Mientras casonan di COVID-19 ta aumentando, gobierno nobo ta tuma tempo pa forma

Parlamentario Mervin Wyatt-Ras durante conferencia di prensa semanal di Fraccion di AVP a elabora encuanto di e cantidad di casonan di COVID-19 cu ta aumentanto drastico.

Ta usa e cifranan di DVG di dia 4 di augustus 2021. Ta trata di 123 caso nobo pa dia di cual tin 116 ta esnan local y 7 turista. Esaki ta contrario na un tempo pasa unda tabatin mas caso di turistanan, despues casi igual di casonan di local y di turistanan y awor por nota cu a bira cu tin mas local infecta cu turistanan.

E "Postitivity Rate" bao localnan ta 33%. Esaki ta un cifra halto. E cantidad di casonan activo ta 630 y e cantidad di fayecimento of morto ta 111. Ta lamentable y tristo cu nos cuidadanonan (t)a perde nan bida dor di COVID-19, Wyatt-Ras ta remarca.

E cantidad di contagionan semanal ta aumentando cu promedio 68 caso y e "Positivity Rate" semanal ta 28%.

Den Hospital na e momentonan aki por constata cu tin 19 pashent cu a ser interna, di cual 5 den ICU y 14 riba afdeling. Por a tende of skucha di esnan cu ta traha na Hospital cu ta yegando na limite di pashent den ICU pa motibo cu e capacidad di ICU ta di 6 pashent. E capacidad a wordo aumenta un tempo pasa ora nos pais a haya sosten di Hulanda RIVM, VWS y di Merca pa medio di diferente profesionalnan cu a bin sostene Hospital. Sinembargo na e momento aki no tin e capacidad manera tabata anterior.

Ta un preocupacion hopi grandi na e momento aki cu Hospital ta onderbezet y hayando mas caso di COVID. Profesionalnan medico ta trahando "around the clock" sin mucho descanso. Esaki ta un situacion hopi preocupante pa nos pais. Pa loke ta trata e informacion cu nos a ricibi di personanan cu ta wordo interna tin entendi cu 89.4% di pashentnan interna den hospital no ta vacuna. Esey ta bisa algo di efecto di vacuna. Por agrega cu di e 116 localnan infecta cu COVID 63% no a vacuna y 39% si vacuna.

Kiermeen si un persona vacuna tog tin riesgo di contagio, sinembargo for di e cifras por bisa cu tog esnan cu a vacuna no ta end up asina lihe den hospital y cu reaccionnan hopi severo. Pues te ainda ta mustra cu esan cu a vacuna tin ventaha ariba esnan cu no a vacuna. Sinembargo ta keda cu tin persona den nos comunidad cu ta skohe pa no vacuna y tin hopi persona cu no tin suficiente informacion pa tuma e decision pa vacuna.

Ta importante pa gobierno enbes di ta ocupa solamente cu tur e asuntonan di formacion ta sigui cu e proceso di concientisa nos ciudadanonan encuanto e importancia di tuma e stapnan y procedurenan di higiena na serio y pa duna informacion encuanto beneficionan di un persona si e vacuna. Bo por bisa tambe cu den diferente establecimento cu bo bishita bo ta mira no tin uso di tapaboca, no ta usa handsanitizer, no ta controla mas si nos hendenan ta cumpli cu rekisitonan.

Gobierno y profesionalnan mester duna informacion pa nos hendenan ta mas cauteloso cu nos salud paso nos salud ta di nos e ta nos tin cu proteha nos mes.
Por a tuma nota cu tin necesidad na vacuna y cu ayera a yega 12.825 vacuna Aruba. E grupo di preocupacion tambe segun Wyatt-Ras ta nos muchanan. Paso di muchanan bao 12 anja no ta wordo vacuna. E grupo aki ora cu skol cuminsa mita di augustus si nan wordo contagia y nan bin cas contagia mayornan y demas famia tin chens di ser contagia. E preocupacion aki ta grandi en bista cu e contagio di e variante Delta ta bai hopi rapido. Esnan vulnerable cu no vacuna tin chens hopi grandi di tin consecuencianan serio si nan ser contagia.

Segun Wyatt-Ras nos no kier ni pensa pa yega asina leu manera a yega na maart 2020, caminda cu mester a bin un "lockdown.

Mirando cu nos ta un pais turistico tin cu tene den consideracion e "reisadviezen" cu ta wordo duna dor di otro paisnan pa por biaha pa cierto paisnan y nos pais. Si un nos no ta tene nos mes na precaucionnan y e cantidad di casonan sigui subi por yega asina leu cu nos no ta wordo considera mas como un pais cu por garantisa seguridad ni e salud pa personanan cu ta bin bishita nos pais. Actualmente nos ta cai den e code geel di paisnan pa bishita, locual ta bon pa nos. Sinembargo nos por bai den code oranje of te hasta code cora. Si nos yega code corra lo bai duna un conseho negativo pa bishita nos pais y ban spera nos no yega na tal extremo paso esaki lo afecta nos turismo y nos economia grandemente. Ainda nos ta recuperando di e cantidad di persona cu a perde trabou pa motibo di e prome ola.

Wyatt-Ras ta haya ta di importancia pa preveni pa nos no yega den tal extremo. Ta miho preveni cu yora malay.

Considerando cu nos pueblo ta den temporada di vacacion, cu nos hendenan ta bai den exterior, ta haci uso di nos beachnan y ta bishita establecimentonan den cantidad grandi ta necesario cierto precuacionnan pa proteha nos mes y otronan. Paso p.e. ora un persona bisti su mondkapje no solamente e ta proteha su mes sino e ta proteha otronan tambe. E cooperacion entre nos poblacion mester wordo fortifica unda un ta proteha otro. Pa loke ta trata e pandemia aki Wyatt-Ras lo manda preguntanan pa minister di Salubridad pa asina haya mas claridad.

Pasobra na e momento aki ta di importante pa pone atencion ariba nos salubridad y manera nos por a tuma nota gobierno aki ta juist corta den salubridad y tin plan den e landspakket pa e area salubridad bai entrega. Esaki no ta justo. Wyatt-Ras ta kere mescos cu gobierno of e ministro presidente demisionario por previlegia su swa pa asina haya sumanan pa e por bira director di WEB Aruba NV y asina duna schat di placa tambe na e directornan cu ta wordo retira, e por ta asina fuerte pa kita e medidanan of manera cu el a bisa papia cu Hulanda pa no bin cu medida den cuido.

Gobierno di Corsou a entrega 10 contratista chikito trabao pa cuminsa activa economia

Gabinete Pisas trahando duro pa pueblo, segun e mandatario manera den varios ocasion a bisa caba gobierno ta traha hunto cu pueblo.

Ta un gran dia pa pueblo di Corsou unda cu Gobierno di Corsou a entrega e opdrachtbrieven pa 10 contratista chikito cuminsa traha den tres area:

1. Beplanting, esaki ta mua mata, onderhoud mata, piki sushi rondo di e mata nan.
2. Riolering. Esaki ta atende cosnan ora riolering kibra etc.
3. Kleine budget ta haci diferente cosnan di infrastructura den un cierto area di Corsou.

E destaho publico a tuma luga y awe ta mira e resultado di esaki. Esaki a tuma luga den e gobierno anterior. Pero no tabatin cen pa hasiele.
Trabou tin pa yiu di Corsou ta dies e gobierno mester pone mas enfasis na e yiunan di tera y anima nan.
Riba e fotonan momento cu e secretario general (A/I) di mi ministerio sra. G. Hollander ta entrega e opdrachtbrieven na cada un contratista.

Exito na tur 10 contratista. Corda boso duna un job na mas yiunan di Corsou pa e cen lora den economia di Corsou. Nos hendenan na prome luga.

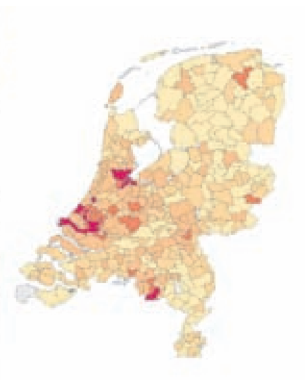

Hulanda no ta pais di riesgo hopi halto mas

Hulanda no ta pais di riesgo hopi halto mas awor cu e cantidad di contagia cu covid-19 den e pais a baha. Esaki Instituto di Reino pa Salubridad y Medio Ambiente (RIVM) a confirma dia 5 di augustus 2021. Esaki ta nifica cu for di diahuebs 5 di augustus 2021 no ta plania test nobo pa biaheronan cu ta bini for di Hulanda. Normalmente ta haci e testnan aki cerca biaheronan for di pais di riesgo hopi halto riba e di 5 dia despues di nan yegada na Boneiro.

Biaheronan for di Hulanda cu te cu diaranson 4 di augustus 20211 a yega Boneiro, si ta haci test normalmente den e dianan binidero. Otro siman Boneiro ta publica e lista nobo y completo cu pais di riesgo halto. Riba www.bonairecrisis.com tin e ultimo enfermonan tocante e condicionnan pa biaha pa Boneiro.

C-Post ta mantene su mes como compania di gobierno di Corsou pa e movemento masivo

C-Post lo keda mantene nan trabao cu e gobierno di Corsou unda cu ta duna e servicio mas, lihe y sigur di mensahenan skirbi, specificamente cartanan , folders, pakinan y placa y siendo un empresa di gobierno esakinan mester sosode contra tarifanan fiho.

Mundialmente e volumen nan postal tin alrededor di dos decada caba ta bahando drasticamente a consecuencia di desaroyonan di digitalisacion manera e-mail, whatsapp, video chat y otro formanan digital di comunica. Empresanan tambe den un forma acelera ta aplicando e concepto di “go-green”, reduciendo nan gastonan dor di manda nan facturanan y “statements” den forma digital pa nan clientenan Esaki ta nifica mesora tambe un reduccion di entrada pa e organisacion postal. E desaroyo aki ta structural y tambe ireversibel. Dor di e bahada structural den volumen di post, e entradanan di e servicio pa añanan caba, no ta suficiente mas pa cubri e gastonan di e propio servicio postal.

Mester tene cuenta cu e servicio postal den un comunidad, ta un obligacion di e Gobierno di cada Pais. Pues e obligacion di keda reparti post den cualkier comunidad, ta hancra den tratadonan internacional di e organo di Nacionnan Uni (Union Postal Universal, UPU) di cual Corsou tambe ta miembro. Comotal, e gobierno tin e obligacion di mantene e infrastructura postal.

C-post, anticipando e desaroyo den mundo postal aki pa basta aña caba a bin ta desaroya servicionan comercial cu ta haci uzo di e mesun infrastructura pa yuda cubri e gastonan di e servicio postal. E margen positivo cu e servicio comercial aki ta genera, ta yuda baha e deficit cu e servicio postal tin. Ta den e sentido aki mester mira por ehempel introduccion di servicionan di online shopping (Puntomio pa Merca y Euromio pa Europa); servicio di transferencia di placa via di Moneygram (di importancia pa un gran parti di e comunidad cu no ta yega facilmente na un instituto bancario pa haci esaki); transporte di carga maritimo (Ocean freight) y tambe aereo (Air Freight) pa companianan local y tambe esunnan cu ta opera via di nos Freezone).

Pa diferente compania local, C-post ta haci e servicio di “pick up and delivery”. Tambe C-post ta pone su infrastructura (loket y personal) disponibel pa otro servicionan di gobierno, manera por ehempel e cobransa di number di auto. Ademas di e servicionan aki, C-post a bin ta haci negoshi internacional pa maneha volumennan grandi di post y pakete (e-commerce) pa partnernan den exterior, cu ta yuda tambe den generacion di divisa pa nos Pais.

Pa loke ta trata reduccion den e gastonan operacional, C-post tin e maneho di introduccion di e asina yama Community Mailboxes den ultimamente tur bario di Corsou. E desaroyo aki mester continua

E terenonan riba cua ta instala e C-boxnan ta propiedad di gobierno mes, pues no ta trece gastonan adicional.

E personal cu ta bini liber, ta ser utilisa den e areanan mas comercial, pues di e forma aki a bin ta evita retiro forsoso na e compania cu actualmente ta emplea alrededor di 170 mama y tata di famia. E reduccion di gastonan den otro areanan operacional durante añanan ta necesario y significante.

Como unico accionista di C-post, gobierno ta aporta anualmente den e deficit postal pa por garantisa esaki su existencia. E aporte financiero aki a ser denomina como “Netto Kosten Vergoeding” y e ta esencial pa e likides cu e compania mester dispone di dje pa yuda cubri su gastonan operacional. E fondonan necesario pa e “Netto Kosten Vergoeding” aki ta keda cubri dor di medionan financiero di Regulatory Authority of Curaçao, anteriormente Bureau Telecommunicatie en Post (BTP).

E cuenta anual di C-post riba su “balance sheet”, pa varios aña caba ta mustra un capital propio negativo. E capital negativo aki ta forma un peliger pa e continuidad structural di e compania. E capital negativo por conduci finalmente na un “faillessement” di e empresa estatal aki. E capital negativo sinembargo por ser reduci considerablemente, si gobierno como accionista traspasa e propiedad di e edificionan den cual C-post ta operando actualmente pa e balansa di e compania mes.

E traspaso aki lo fortifica-solvabilidat C-post y lo no tin consecuencia negativo pa presupuesto di gobierno. Nos mester evalua, si lo pasa e edificionan over pa C-Post y si nos haci esey, bou di cua condicion esaki lo sosode.Gobierno mester tuma e siguiente decision con lo mester sigui cu C-Post. Esaki lo ta encera entre otro: Optimalisa e servicionan di C-Post hibando e pa ser un “key player” pa locual ta trata E-commerce (Comercio electronico). C-Post mester por ofrece pa productonan cumpra “online” yega cerca e cumprado mas lihe posibel sin mester keda dianan o siman den exterior o na Miami. Di e forma aki gastonan pa e consumido lo baha, y mas transaccion haci ta nifica mas entrada pa gobierno finalmente.

Desaroya e sector di B2C(Business to Consumer/ empresa pa consumido) local di tal forma cu clientenan por ricibi nan paketenan of compranan haci local via plataformanan di comercio electronico na prijsnan competitivo. Investiga y elimina bareranan cu ta haci transaccionnan di pago online o entrega te na Corsou imposibel.

II Sector di beleidsorganisatie Desaroya un maneho integral pa baha gasto di alohamento di ministerionan di gobierno y drecha esaki, un ke otro mester tuma luga en estrecho cooperacion cu Ministerio di BPD.

Cambionan den ley cu lo permiti pa construccion den piso bay 4 i 5 piso of mas halto (high rise), pa haci mas facil pa por construi apartamentonan caminda hende por biba aden, y tambe pa reduci costonan di preparacion di tereno (haci e tereno cla pa construccion y pone infrastructura).

Mas aleu, lo mehora cooperacion y sincronisacion entre e diferente unidadnan di Ministerio di Trafico, Transporte y Planificacion Urbano y tambe entre e Ministerio aki y esunnan di Desaroyo Economico y di Salubridad, Medio Ambiente y Naturalesa.

Evalua y adapta EOP na beneficio di desaroyo sostenibel; Por evalua cu por slek 25 te 35% di terenonan cu ta terenonan cu destinacion di conservacion, park y “open land” pa areanan di vivienda of turismo.

Lo evalua cua ta e miho solucion rondo di e holding CD&T N.V. y su companianan operacional (dochtermaatschappijen) Introduci un maneho di centralisacion di vivienda y tur loke ta necesidad di hende. Por ehempel y parke, dokter, centro di bario, posibilidad pa haci negoshi y deportenan individual.

Corsou no ta reforsa medidanan pa coronavirus

(CuraçaoChronicle) – No ta bay reforsa medidanan pa coronavirus na Corsou. Den conferencia di prensa ayera, prome minister Gilmar Pisas y epidemiologo Dr. Izzy Gerstenbluth a papia riba e ola nobo di contaminacion den cual Corsou ta pasando actualmente. Segun e prome minister, tur hende mester haci nan best pa comporta responsablemente pa economia por continua.

Ayera tabatin 72 test positivo, un cu no ta residente y e resto hende local. 59 persona a sali di isolacion. Awo tin 23 persona den hospital, cuatro di ken ta den Unidad di Cuido Intensivo. E pashentnan den hospital den gran parti no ta vacuna.
Gerstenbluth a mustra cu un grafico cu mayoria di infeccion ta tuma luga na sitionan di entretenimento y specialmente na barnan riba beach.

No ta bay tin mas checkeo na clubnan nocturno. Mester observa tur medida eynan. No tin excepcion.

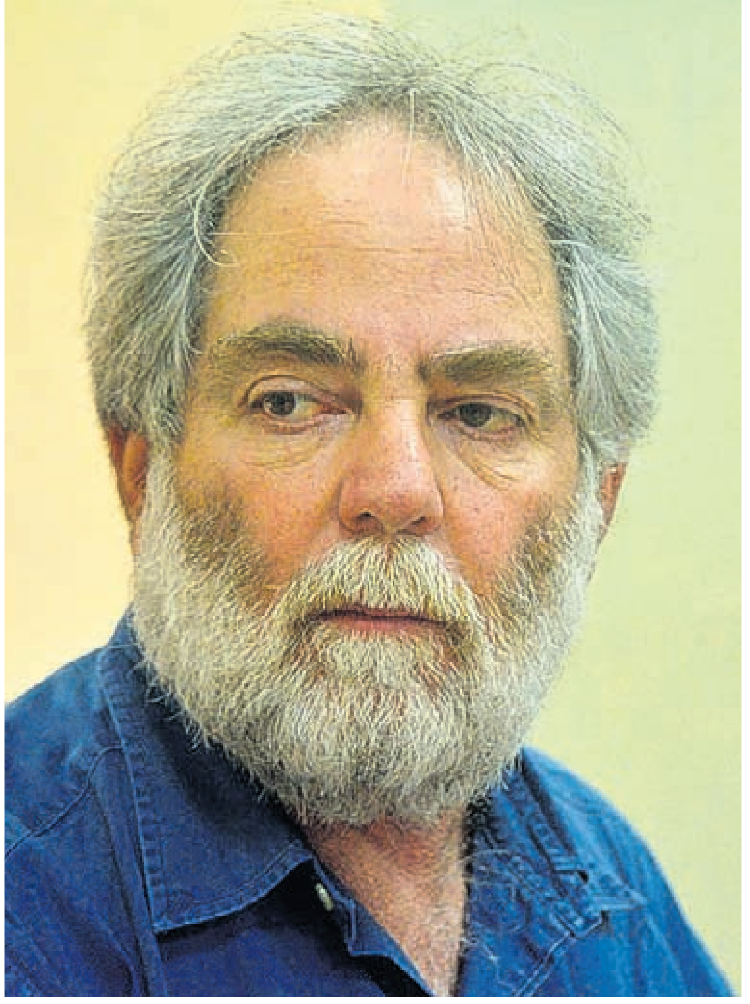

CMC preparando pa mas pashent di Covid-19
Mientras tanto, Corsou a añadi tres morto mas na e total como resultado di infeccion di Covid-19. Un di e tres tabata interna den Centro Medico Corsou (CMC) y e otro dos tabata na cas y no tabata contagioso mas.

Ningun di e tres morto tabata vacuna, gobierno a bisa den e update diario riba cifranan di coronavirus. E cantidad di fatalidad na Corsou a aumenta di 127 na 130.

For di diamars te diaranson mainta, a admiti cuatro pashent nobo di Covid den CMC. Awo tin 21 pashent cu Covid-19 den hospital, di cual cinco ta rekeri cuido intensivo.
E Unidad di Cuido Intensivo di e hospital tin diesseis cama.
Vocero di CMC, Germaine Gibbs a bisa cu e hospital ya a aumenta camanan extra pa covid, sin mas consecuencia pa cuido regular y citanan na e clinicanan.

E decision pa pone mas cama disponibel pa covid ta complica. Gibbs a bisa cu ta tuma deliberacion. “Nos por pone hasta 130 cama disponibel dentro di e hospital, incluyendo 40 di e 46 cama den ICU”, Gibbs a bisa. “Pero mas nos aumenta, mas grandi e chens cu cuido electivo ta bay bira un problema.”

Riba diaranson, tabatin 78 caso positivo di 2,109 resultado di test. Di esakinan, al menos seis infeccion ta designa como importa. Esaki ta nifica cu ta trata di un persona cu a biaha na Corsou. Un cantidad grandi di hende a logra sali di isolacion y a wordo cura of declara liber di e virus: 136. E cantidad di caso activo a cay di 607 na 548 como resultado.

Pueblo na Groningen sacudi pa teremoto di magnitud

(NLTimes) – Un teremoto cu magnitud 1.9 a keda midi den e provincia di Groningen alrededor di 7:15am ayera mainta. E epicentro tabata den e pueblo di Hellum, y e teremoto a tuma luga na un profundidad di 3 kilometer, segun instituto meteorologico KNMI.

KNMI a yam’e un teremoto ‘induci’, loke ta nifica cu tabata causa mas probablemente pa extraccion di gas na Groningen.

E provincia regularmente ta afecta pa teremoto di fracking. E aña aki so, tabatin teremoto na Stedum, cerca di Loppersum, den Wildervank y cerca di Tjuchem.

Ainda no ta conoci si e teremoto mas recien aki a causa daño na e casnan den e area.

No ta enhuicia soldad pa mensahenan racista

(NLTimes) – Ministerio Publico (OM) no ta bay conduci un investigacion criminal riba seis soldad marinier kende a comparti ‘imagennan doloroso y insultante’ den un grupo di WhatsApp relaciona na servicio.

Esakinan ta inclui ‘imagennan cu ta extremadamente doloroso pa personanan di cuero color scur’, segun OM. Pasobra no a haci e declaracionnan en publico, enhuiciamento no ta na su lugar, segun e hudiciario.

Ministerio di Defensa awo ta evaluando su propio posibel medidanan, pasobra OM no ta conduciendo un investigacion. E departamento ta ‘subraya cu no tin luga pa declaracionnan doloroso of discriminatorio, sea nan a wordo haci publico of no’.

Pa fin di juni, ministerio di Defensa a ricibi un reporte tocante e material comparti den e grupo di WhatsApp di diescinco marinier. E tempo aya nan tabata participando den un ehercicio na Dinamarca. Despues di e reporte, e comandante a manda e seis marinier cu a comparti e imagennan back na Hulanda.

Riba peticion di e ministerio, OM a evalua e material pa criminalidad. Desde e reporte, e mariniernan ta suspendi y na cas.

Por considera tres mensahe como castigabel, segun OM a bisa ayera. “Pero pa enhuicia ta necesario cu a haci e declaracionnan den publico”, e huidiciario a bisa. “Esey no ta e caso, awo cu e declaracionnan a wordo haci den un grupo di WhatsApp limita y cera di 15 persona. No por demostra cu e soldadnan tabatin e intencion pa haci e mensahenan publico tampoco, ni cu intencionalmente nan a tuma e riesgo cu e imagennan ta bay bira publico.”

Summer funding helped school districts address disparities

(AP) — After another pandemic-disrupted school year, organizers of vastly expanded summer learning opportunities are investing heavily in efforts to make them accessible to the most vulnerable students.

While there have been success stories, the programs have faced many of the same challenges that educators have been up against since the pandemic hit: Attendance has been inconsistent, some families have lost interest, and COVID-19 still has many reluctant to let students learn in-person.

Educators also have had to address persistent barriers to access for summer programs for families that juggle work and child care and have limited access to transportation.

“We’re starting from a really unequal playing field,” said Halley Potter, a senior fellow at The Century Foundation who studies educational inequity. “There’s a lot that school districts have to do, and community organizations that are running these programs as well, in order to help pick that up.”

The summer programs offered by schools and community groups are powered by an infusion of private and public funding — including billions of dollars in federal stimulus money — to help students catch up on learning. School districts targeted their outreach to students identified as high needs, including students with failing grades in core classes or in high-poverty neighborhoods.

When Peñasco Independent School District, which serves roughly 350 students in New Mexico, announced a summer program this year, demand overwhelmed the number of slots until the district doubled the number of seats available.

But of the 85 children signed up, more than half would not be able to attend if it weren’t for district-provided transportation services.

In Peñasco, pervasive intergenerational poverty has pushed school districts to embrace the so-called “community schools” model that provides services like counseling, transportation, internet access and other resources, ensuring participation in school programs.

In the rural district, community schools director Michael Noll said, some families don’t own a car. Some who do have periods where they can’t afford gas. And others are often juggling work and child care, unable to constantly shepherd kids back and forth.

The district runs three buses to make sure those 50 kids can attend. Like many families in these rural foothills of the Rocky Mountains, social worker Carmen Lyn Romero lives on a dirt road too narrow for a school bus.

Romero, who balanced taking care of her five children with serving nearby tribal reservation Picuris Pueblo, relied on an SUV the district sent to pick up her children.

“The school has been so accommodating to my kids, to pick them up and drop them off. I can’t do that,” said Romero, 28.

Even before the pandemic, students’ summer experiences divided heavily along socioeconomic lines. Middle and upper class students typically experience learning gains over the summer and are more likely to have access to summer enrichment, Potter said.

In contrast, low-income students typically see learning loss, Potter said. Families often struggle to find slots in affordable summer enrichment programs, where demand can readily outpace the number of available seats.

The dramatically expanded number of seats available through school districts this year eased some of those pressures, and targeted outreach policies aimed to get high-needs students into those slots.

Charlotte-Mecklenburg Schools typically does not host a summer session, but offered more than 30,000 slots this year to any student interested and saw an average daily attendance of around 15,000.

While any student could sign up and get a seat, the district identified those with Ds or Fs in core classes, students with unstable housing or who were chronically absent, and students with special needs for individual outreach, including home visits and phone calls to inform families about registration.

About 65,000 students were identified as at-risk under those criteria, and nearly 20,000 of those children signed up for a summer slot. The program saw an average daily attendance of about 10,000 at-risk students.

Tangela Williams, who is overseeing summer programming, said that because attendance was not mandatory, some students came only on certain days of the week or started during the middle of the 24-day program. While some parents said they were simply no longer interested, staff members contacted each family if a student missed three consecutive days to provide any support needed in case the student wanted to return.

Williams said that while there were limits to what could be done, she hoped the experience would go beyond teaching content and help students make the transition back to in-person learning.

“A percentage of our kids who are attending summer camp were full-remote kids during the school year,” Williams said. “Having them in school this summer is a way to reacclimate them to school life with new processes and socialization that they’re going to have with their peers.”

Lawmakers give Cuomo deadline in impeachment probe

(AP) — State lawmakers told Gov. Andrew Cuomo on Thursday that their ongoing impeachment investigation is almost done and gave him a deadline of Aug. 13 to provide additional evidence.

Since March, the Assembly's judiciary committee has been investigating whether there are grounds to impeach the Democratic governor over sexual harassment allegations, misleading the public about COVID-19 outbreaks at nursing homes and using state resources and staff for his $5 million book deal.

In a letter sent Thursday, the law firm leading the investigation, Davis Polk & Wardwell, reminded Cuomo's legal team that it has subpoenaed certain documents and expects "full compliance from the governor," but that his time to respond was almost up.

"We write to inform you that the Committee's investigation is nearing completion and the Assembly will soon consider potential articles of impeachment against your client," they wrote. "Accordingly, we invite you to provide any additional evidence or written submissions that you would like the Committee to consider before its work concludes."

The letter was released publicly by Assembly Judiciary Committee Chair Charles Lavine, a Long Island Democrat.

The committee has scheduled its next meeting on the matter for Monday.

Findings from an independent investigation overseen by state Attorney General Letitia James released earlier this week said Cuomo sexually harassed at least 11 women, and that his administration retaliated against at least one of them for going public with her allegations.

Cuomo has denied making any inappropriate sexual advances and insists the findings don't reflect the facts. He's resisted numerous calls for his resignation from most of New York's top Democrats and from national figures like President Joe Biden.

The governor had no public events planned Thursday, and has not made himself available to reporters since the report's release Tuesday.

District attorneys in Manhattan, suburban Westchester, Oswego, and Nassau counties and the state capital of Albany said they asked for investigative materials from the inquiry to see if any of the allegations could result in criminal charges.

Oswego County District Attorney Greg Oakes told WSYR-TV that he will begin investigating an incident involving a woman who testified that Cuomo ran two fingers across her chest and grazed the area between her shoulder and breasts at an upstate conservation event in May 2017.

One of Cuomo's accusers said he groped her breast. Others have said he gave them unwanted kisses or touched parts of their bodies in ways that made them uncomfortable.

Nearly 60% — at least 89 — of the Assembly's 150 members said they would impeach Cuomo if he doesn't resign, according to a tally by The Associated Press based on interviews and public statements.

That's more then the simple majority needed for an impeachment vote.

Assemblymember Sarah Clark, a Democrat from Rochester, said colleagues who were once hesitant to call for Cuomo to leave office are now all calling for his resignation or impeachment.

"There are not that many more questions in anyone's mind that he has truly broken state laws, and the state sexual harassment laws he signed into law," Clark said.

Assembly Speaker Carl Heastie said the Assembly's judiciary committee will first wrap up its probe "as quickly as possible" before the chamber votes on articles of impeachment.

But it's far from clear how long that will take: Several judiciary committee members estimate weeks or even a month.

Clark has asked legislative leaders whether the Assembly could submit articles of impeachment on harassment first and add more findings later. But committee member Tom Abinanti, a Democrat, said he supports waiting to end the probe and drawing up comprehensive articles that could hold up to legal scrutiny.

At least 10 dead as van carrying migrants crashes in Texas

(AP) - An overloaded van carrying 29 migrants crashed Wednesday on a remote South Texas highway, killing at least 10 people, including the driver, and injuring 20 others, authorities said.

The crash happened shortly after 4 p.m. on U.S. 281 in Encino, Texas, about 50 miles (80 kilometers) north of McAllen. Sgt. Nathan Brandley of the Texas Department of Public Safety says the van, designed to hold 15 passengers, was speeding as the driver tried to veer off the highway onto Business Route 281. He lost control of the top-heavy van, which slammed into a metal utility pole and a stop sign.

The van was not being pursued, said Brooks County Sheriff Urbino Martinez.

The sheriff said he believed all of the passengers were migrants. Brandley said the death toll was initially announced as 11 but was later revised. He also said the 20 who survived the initial crash all have serious to critical injuries.

The identities of the 30 in the van were being withheld until relatives can be notified, Brandley said. No information about the van, including where it was registered or who owned it, was immediately released.

Encino is a community of about 140 residents about 2 miles (3.22 kilometers) south of the Falfurrias Border Patrol checkpoint.

A surge in migrants crossing the border illegally has brought about an uptick in the number of crashes involving vehicles jammed with migrants who pay large amounts to be smuggled into the country. The Dallas Morning News has reported that the recruitment of young drivers for the smuggling runs, combined with excessive speed and reckless driving by those youths, have led to horrific crashes.

Victor M. Manjarrez Jr., director of the Center for Law & Human Behavior at the University of Texas at El Paso, told the newspaper that criminal organizations recruit drivers from Austin, Dallas and Houston. Others come from the El Paso area, while others come from parts of Latin America rife with police corruption.

"They're told, 'If you're caught, it'll go bad for you,'" he said.

They'll be picked out of a group of migrants seeking safe passage across the border for a reduction of their smuggling fee, Manjarrez said. They're told to follow a scout vehicle.

"It's not bad for a few hours' work," Manjarrez said.

One of the deadliest crashes came on March 3, when 13 people were killed when a semitrailer truck slammed into a sport utility vehicle containing 25 migrants near Holtville, California, about 125 miles (200 kilometers) east of San Diego.

On March 17, eight migrants were killed when the pickup truck carrying them crashed into another truck while being pursued by police nearly 30 miles (50 kilometers) north of the border city of Del Rio, Texas. The driver faces a possible life sentence after pleading guilty to multiple federal charges on May 24. No sentencing date has been set.

Immigrant detentions soar despite Biden's campaign promises

(AP) — Alexander Martinez says he fled from homophobia, government persecution and the notorious MS-13 gang in El Salvador only to run into abuse and harassment in America's immigration detention system.

Since crossing the border illegally in April, the 28-year-old has bounced between six different facilities in three states. He said he contracted COVID-19, faced racist taunts and abuse from guards and was harassed by fellow detainees for being gay.

"I find myself emotionally unstable because I have suffered a lot in detention," Martinez said last week at Winn Correctional Center in Louisiana. "I never imagined or expected to receive this inhumane treatment."

He's among a growing number of people in immigration detention centers nationwide, many of whom, like Martinez, have cleared their initial screening to seek asylum in the U.S.

The number of detainees has more than doubled since the end of February, to nearly 27,000 as of July 22, according to the most recent data from U.S. Immigration and Customs Enforcement. That's above the roughly 22,000 detained last July under then-President Donald Trump, though it's nowhere close to the record in August 2019, when the number of detainees exceeded 55,000, ICE data shows.

The rising detentions is a sore point for President Joe Biden's pro-immigration allies, who hoped he would reverse his predecessor's hardline approach. Biden campaigned on ending "prolonged" detention and use of private prisons for immigration detention, which house the majority of those in ICE custody.

"We're at this really strange moment with him," said Silky Shah, executive director of Detention Watch Network, which advocates for ending immigration detention outright. "There's still time to turn things around, but his policies so far haven't matched his campaign rhetoric."

In May, the Biden administration terminated contracts with two controversial ICE detention centers — one in Georgia and another in Massachusetts — getting praise from advocates who hoped it would be the start of a broader rollback.

But no other facilities have lost their ICE contracts, and Biden has proposed funding for 32,500 immigrant detention beds in his budget, a modest decrease from 34,000 funded by Trump.

A White House spokesman said Biden's budget reduces the number of ICE detention beds and shifts some of their use to processing immigrants for parole and other alternatives.

Homeland Security Secretary Alejandro Mayorkas said in a recent congressional hearing that he's "concerned about the overuse of detention" and pledged to continue to review problematic facilities.

The rising number of asylum-seekers detained for prolonged periods is among the most concerning developments, said Heidi Altman, policy director at the National Immigrant Justice Center.

The number of detainees who have passed their initial asylum screening has leapt from around 1,700 in April to 3,400 in late July, making up about 13% of all detainees, according to the most recent ICE data.

"By ICE's own policy, these are people that shouldn't be in detention any longer," Altman said, citing ICE's process for paroling asylum-seekers until a judge decides their case.

ICE officials declined to comment.

Martinez, the Salvadoran national, cleared his initial screening in May, which determines whether an asylum-seeker has a "credible fear" of persecution in their homeland.

But his lawyers say ICE is keeping him detained because it wrongly believes he's a member of the MS-13 gang.

Martinez says he fled El Salvador after he and his family received death threats because he testified against the gang in the killing of one of his friends. He says investigators tried to get him to testify in other gang-related murders but he was reluctant because he had not witnessed those crimes.

"I was very scared," Martinez said. "I told the investigators that I was going to leave the case. I didn't want to go through the process anymore because I don't want them to hurt my family, let alone me."

ICE officials in New Orleans declined to comment on Martinez's case and specific concerns about treatment at the Winn prison, citing federal confidentiality rules for cases dealing with victims of violence and other crimes.

Winn, one of the nation's largest ICE detention centers, has long angered civil rights groups. The Southern Poverty Law Center in June called on the Biden administration to cancel its government contract, citing abuse, medical neglect, racism and other mistreatment at the facility, which is tucked in a dense forest in rural Louisiana and ringed by barbed wire.

An agency spokesperson said ICE generally is committed to ensuring detainees are in a safe, secure and clean environment, are provided comprehensive medical care and have their concerns and complaints addressed by staff in writing.

Immigration opponents argue that a more troubling trend than the rise in detentions is an apparent drop-off in ICE enforcement in cities and towns.

As of last month, more than 80% of detainees had been apprehended by Border Patrol officials, and less than 20% by ICE agents, the ICE data shows. Last July under Trump, 40% of detainees were picked up by the Border Patrol, and 60% by ICE.

That means most of those in detention were apprehended trying to enter the country illegally, not from local immigration enforcement, said Andrew Arthur, a fellow at the Center for Immigration Studies, which advocates for lower immigration.

"We're simply not enforcing immigration law in the interior of the country," he said.

Meanwhile, detainees and advocates call for closing detention facilities in favor of monitoring paroled immigrants with GPS devices and other measures.

ICE detainees at the Bergen County Jail in New Jersey filed an administrative complaint last month with Homeland Security's civil rights office seeking an investigation into allegations including poor sanitary conditions and medical neglect during the pandemic.

"At the end of day, we're detainees, not inmates," said Jean Claude Wright, a 38-year-old native of Trinidad and former U.S. Air Force officer named in the complaint. "But this is worse than prison."

ICE detainees at the Plymouth County House of Corrections in Massachusetts similarly sent a letter to supporters in June, detailing issues like restrictions on visits.

Allison Cullen says she hasn't been able to visit her husband, a Brazilian national, since before the pandemic.

The couple's youngest child was only a few months old when Flavio Andrade Prado was detained, and he hasn't seen his now-2-year-old daughter in person in months, she said.

Back in Louisiana, Martinez says he's asked to be placed in solitary confinement, fearing for his safety.

Two detainees who harassed him for being gay were moved, but ICE officials later sent him to a higher-security unit where he said many gang-affiliated detainees are housed.

He says he spends most of his days in his cell, with limited access to communications and recreation.

"It's really difficult and miserable, and I'm all alone all the time," Martinez said. "I'm a good person. This treatment is inhuman."

He wants to settle in San Jose, California, where a friend promised to help him find work. He wants to send money back to El Salvador — his mother has cancer and his younger sister is in college.

"I just want what everyone wants," Martinez said, "to get out, be free and help support my family."

Israeli defense minister threatens Iran with military action

(AP) — Israel's defense minister warned Thursday that his country is prepared to strike Iran, issuing the threat against the Islamic Republic after a fatal drone strike on a oil tanker at sea that his nation blamed on Tehran.

The comments by Benny Gantz come as Israel lobbies countries for action at the United Nations over last week's attack on the oil tanker Mercer Street that killed two people. The tanker, struck off Oman in the Arabian Sea, is managed by a firm owned by an Israeli billionaire.

The U.S. and the United Kingdom also blamed Iran for the attack, but no country has offered evidence or intelligence to support the claim. Iran, which along with its regional militia allies has launched similar drone attacks, has denied being involved.

Speaking to the news website Ynet, Gantz responded to whether Israel was prepared to attack Iran with a blunt "yes."

"We are at a point where we need to take military action against Iran," Gantz said. "The world needs to take action against Iran now."

From Tehran, Iran's foreign ministry spokesman Saeed Khatibzadeh described Gantz's threat as "another brazen violation of Int'l law" and "malign behavior" that allegedly stems from Israel's blind support for the West.

He tweeted: "We state this clearly: ANY foolish act against Iran will be met with a DECISIVE response. Don't test us."

On Wednesday, in a letter to the U.N. Security Council, Iran's deputy ambassador to the United Nations described Israel as "the main source of instability and insecurity in the Middle East and beyond for more than seven decades."

"This regime has a long dark record in attacking commercial navigation and civilian ships," Zahra Ershadi wrote. "In less than two years, this regime has attacked over 10 commercial vessels carrying oil and humanitarian goods destined to Syria."

Ershadi's comments refer to an ongoing shadow war being waged in Mideast waterways since 2019 that has seen both Iranian and Western-linked ships attacked.

The latest provocation occurred earlier this week, when hijackers stormed an asphalt tanker off the coast of the United Arab Emirates in the Gulf of Oman, briefly seizing the vessel before departing on Wednesday. No one claimed responsibility for the incident, although recorded radio communication from the ship shared with The Associated Press revealed one of the crew members saying that armed Iranians had boarded the Asphalt Princess.

In response to a request for comment, the United States Central Command, known as CENTCOM, put the blame squarely on Iran on Thursday.

"We are troubled by the temporary forcible seizure of the M/V Asphalt Princess by Iranian gunmen," said U.S. Air Force Maj Nicole Ferrara, a CENTCOM spokesman. "We are looking into the incident, but do not have an understanding of what the Iranians were doing at this time, or why they would impede the transit of this legitimate commercial vessel."

Iran has denied involvement in the incident, calling all the recent maritime escalations in the region as "completely suspicious."

Last week's attack on the Mercer Street killed the vessel's Romanian captain as well as a British crew member who worked for Ambrey, a maritime security firm. In a statement Thursday, Ambrey identified the victim as Adrian Underwood, a former soldier in the British Army who started at the firm as a maritime security officer in 2020 before becoming a team leader.

"We continue to be in contact with Adrian's family to offer support at this sad and difficult time," said John Thompson, Ambrey's management director.

The attacks began a year after then-President Donald Trump unilaterally withdrew from Iran's nuclear deal with world powers, which saw Iran limit its enrichment of uranium in exchange for the lifting of economic sanctions. President Joe Biden has said he's willing to rejoin the accord, but talks over salvaging the deal have stalled in Vienna.

Fire rages anew near Athens, evacuations in southern Greece

(AP) — Wildfires rekindled outside Athens and forced more evacuations around southern Greece Thursday as weather conditions worsened and firefighters in a round-the-clock battle stopped the flames just outside the birthplace of the ancient Olympics.

As additional support arrived from Greece's military and European Union countries, water-dropping planes and helicopters swooped over blazes near the capital, on the island of Evia and near Ancient Olympia to the south.

"The country is facing an unprecedented environmental crisis, with multiple large fires," Prime Minister Kyriakos Mitsotakis said after visiting the site where the Olympics were held in antiquity every four years from 776 B.C. for more than a millennium. More than a dozen villages were evacuated in the area.

A heat wave baking southeast Europe for a second week has also triggered deadly fires in Turkey and Albania and blazes across the region.

North Macedonia's government on Thursday declared the country in a state of crisis for the next 30 days due to wildfires.

The EU Commissioner for the environment, Virginijus Sinkevicius, said the fires and extreme weather globally over the summer were a clear signal for the need to address climate change.

"We are fighting some of the worst wildfires we've seen in decades. But this summer's floods, heatwaves and forest fires can become our new normality," he wrote in a tweet.

"We must ask ourselves: Is this the world we want to live in? We need immediate actions for nature before it's too late."

The EU bolstered assistance to fire-stricken countries, sending 40 French firefighters and eight tons of material to help Greece.

Greece's Civil Protection Agency said the risk of fires across southern Greece would increase further Friday, despite an expected slight dip in temperatures that reached 45 C (113 F) earlier this week. The heat wave was described as Greece's worst since 1987.

Defense Minister Nikolaos Panagiotopoulos said the armed forces would expand their role in fire prevention, with ground patrols, drones, and aircraft over areas vulnerable to wildfires.

Outside Athens, a forest fire that broke out Tuesday and damaged or destroyed scores of homes rekindled, triggering fresh evacuations in the area and sending thick smoke over the capital.

The EU Atmosphere Monitoring Service said smoke plumes from the region's wildfires were clearly visible in satellite images, adding that the estimated intensity of the wildfires in Turkey was at the highest level since records started in 2003.

On the island of Evia, a major fire that broke out Tuesday was ravaging forests, leading to the evacuation of villages. More than 160 firefighters, three planes and three helicopters, as well as five ground teams and 57 vehicles, were deployed.

The fires have not caused any deaths or serious injuries. But Greek scientists said the total destruction in just three days this month in Greece exceeded 50% of the average area burned in the country in previous years. An Athens Observatory report said an estimated 6,000 hectares (14,800 acres) went up in smoke between Sunday and Wednesday, compared to 10,400 hectares in the whole of last year.

The causes of the Greek wildfires were unclear, but authorities say human error and carelessness are most frequently to blame.

South Africans protest killings in Durban suburb in rioting

(AP) — Supporters of South Africa's leftist opposition party, the Economic Freedom Fighters, on Thursday demonstrated against the killings of 36 people in Phoenix, a suburb of Durban, during the recent violent riots in KwaZulu-Natal province.

More than 1,000 people marched through Phoenix to hand police a statement demanding justice for the families of those who were killed in that town during the violence.

The riots in July, sparked by the imprisonment of former president Jacob Zuma, descended into widespread looting of shopping malls and retail shops across KwaZulu-Natal and spread to Gauteng, South Africa's most populous province.

More than 300 people died in the week-long riots which were quelled by the deployment of 25,000 soldiers.

During the riots, racial tensions flared in Phoenix, a community predominantly of South Africans of Indian descent. Many Phoenix residents patrolled the suburb to prevent its shops and businesses from being looted and some are accused of shooting Black people they suspected of being rioters.

Earlier this week police confirmed that of the 36 killed in Phoenix, 30 were shot and others were stabbed and burned. Police confiscated 264 firearms from individuals and security companies in the area.

According to the police, 22 people have been arrested for the killings in Phoenix and have been charged with murder, attempted murder, and assault.

On Thursday, the demonstrators against the Phoenix killings observed a moment of silence and read aloud the names of those who were killed.

A leader of the demonstration, Marshall Dlamini, a member of parliament for the Economic Freedom Fighters, accused South Africa's government of allowing some members of the Indian community to inflict racist, vigilante violence on Blacks.

"They (the government) have sent police here to our march, but where were they when our people were being killed?" asked Dlamini.

He also accused police and soldiers of conducting searches for the looted goods in townships where Black people live, but not doing so in communities with predominantly Indian and mixed-race residents.

British navy group: Hijackers have left vessel off UAE coast

(AP) — The hijackers who captured a vessel off the United Arab Emirates in the Gulf of Oman left the ship Wednesday, the British navy reported, as radio traffic appeared to reveal a crew member onboard saying Iranian gunmen had stormed the asphalt tanker.

The incident — described by the British military's United Kingdom Maritime Trade Operations the night before as a "potential hijack" — revived fears of an escalation in Mideast waters and ended with as much mystery as it began.

Hints of what unfolded on the Panama-flagged Asphalt Princess emerged with a maritime radio recording obtained by commodities pricing firm Argus Media and shared with The Associated Press. In the audio, a crew member can be heard telling the Emirati coast guard that five or six armed Iranians had boarded the tanker.

"Iranian people are onboard with ammunition," the crew member says. "We are … now, drifting. We cannot tell you exact our ETA to (get to) Sohar," the port in Oman listed on the vessel's tracker as its destination. It was not clear whether the crew members, whom he identified as Indian and Indonesian, were in danger at the time of the recording.

No one took responsibility for the brief seizure, which underscored mounting tensions as Iran and the United States seek a resolution to their standoff over Tehran's tattered 2015 nuclear deal with world powers.

In an apparent response, Iranian Foreign Ministry spokesman Saeed Khatibzadeh on Tuesday denied that Iran played any role. He described the recent maritime attacks in the Persian Gulf as "completely suspicious."

The rising tensions have played out in the waters of the Persian Gulf, where just last week a drone attack on an oil tanker linked to an Israeli billionaire off the coast of Oman killed two crew members. The West blamed Iran for the raid, which marked the first known fatal assault in the shadow war targeting vessels in Mideast waters. Iran denied involvement.
Late on Tuesday, the intruders boarded the Asphalt Princess sailing off the coast of Fujairah, authorities said. The official news agency of Oman's military said it received reports that the Asphalt Princess had been hijacked and immediately dispatched Royal Air Force maritime patrol aircraft and naval vessels "to contribute to securing international waters."

In the recorded radio traffic, when the Emirati coast guard asks the crew member what the Iranian gunmen were doing onboard, he says he "cannot understand the (Iranians)," his voice muffled, before trying to hand over the radio to someone else. The call then cuts off.

Speaking from Washington, State Department spokesman Ned Price said that American officials also "believe that these personnel were Iranian, but we're not in a position to confirm this at this time."

Possible signs of trouble began to emerge that evening when six oil tankers off the coast of Fujairah announced around the same time via their Automatic Identification System trackers that they were "not under command," according to MarineTraffic.com. That typically means a vessel has lost power and can no longer steer.

Satellite-tracking data had showed the Asphalt Princess gradually heading toward Iranian waters off the port of Jask early Wednesday, according to MarineTraffic.com. Hours later, however, it stopped and changed course toward Oman, just before the British navy group declared the hijackers had departed and the vessel was "safe."

In an analysis, maritime intelligence firm Dryad Global described the seizure of the Asphalt Princess as the latest Iranian response to outside pressures, economic conflicts and other grievances.

"Iran has consistently shown that in conducting this kind of operation, it is calculated in doing so, both by targeting vessels directly connected with ongoing disputes and (vessels) operating within the 'grey space' of legitimacy," which may be involved in illicit trade, Dryad Global said.
The owner of the Asphalt Princess, listed as Emirati free zone-based Glory International, could not be reached for comment.

The U.S. military's Mideast-based 5th Fleet and the British Defense Ministry also did not respond to requests for comment. The Emirati government did not acknowledge the incident.

The Gulf of Oman sits near the Strait of Hormuz, the narrow mouth of the Persian Gulf through which a fifth of all traded oil passes. Fujairah, on the UAE's eastern coast, is a main port in the region for ships to take on new oil cargo, pick up supplies or trade out crew.

For the past two years, after then-President Donald Trump withdrew the U.S. from Iran's nuclear deal and imposed crushing sanctions, the waters off Fujairah have witnessed a series of explosions and hijackings. The U.S. Navy has blamed Iran for a series of limpet mine attacks on vessels that damaged tankers.
In 2019, Iran's Revolutionary Guard detained a British-flagged tanker, the Stena Impero, near the Strait of Hormuz. Last year, an oil tanker sought by the U.S. for allegedly circumventing sanctions on Iran was hijacked off the Emirati coast and later ended up in Iran, though Tehran never acknowledged the incident.

And in January, armed Iranian Revolutionary Guard troops stormed a South Korean tanker and forced the ship to change course and travel to Iran. While Iran claimed it detained the ship over pollution concerns, it appeared to link the seizure to negotiations over billions of dollars in Iranian assets frozen in South Korean banks.

Last week's attack on the oil tanker Mercer Street off Oman, killing two, has drawn criticism from the U.S., the United Kingdom and Israel. Israel has launched a diplomatic effort at the United Nations over the attack. Meanwhile, U.S. Secretary of State Antony Blinken spoke with British Foreign Secretary Dominic Raab on Wednesday about the attack.
Blinken and Raab spoke about "ongoing efforts to forge a coordinated response to Iran's attack," according to the State Department. Raab stressed on Twitter the "need for Iran to stop its destabilising behavior."

US women earn bronze medal with 4-3 win over Australia

(AP) — Although the color of their medal wasn't what they wanted, the mettle of the team came through in the end.

The United States salvaged a rocky tournament by winning bronze in women's soccer at the Tokyo Olympics on Thursday. Megan Rapinoe and Carli Lloyd scored two goals each in a 4-3 win over Australia after opening the Tokyo Games with an uncharacteristic 3-0 loss to Sweden.

"It's very satisfying. I think we all realized we didn't play the best this entire tournament," U.S. captain Becky Sauerbrunn said. "So to have the response that we did after a very disappointing semifinal, to show the USA mentality and the resiliency, to put the performance in that we wanted to be playing the entire time, and to finally find it in a game like that — very satisfying."

The loss spoiled the Australians' first-ever trip to the medal round at the Olympics. No Australian soccer team, men or women, has ever won a medal.

The Matildas were the underdogs against the United States, the top-ranked team in the world and the defending World Cup champions who came to Japan vying for gold. But the Americans struggled at times, including in a 1-0 loss to Canada in the semifinals. The Canadians hadn't defeated their North American counterparts since 2001.

The U.S. team that came out against Australia looked completely different.

"That was the U.S. mentality," Lloyd said. "We played well, we strung some really good sequences together, scored some great goals. And I'm extremely proud of the way we persevered, they way we turned things around. We're going home with a medal, and there's no greater feeling than that."

Rapinoe scored directly from a corner kick in the eighth minute to give the Americans an early lead. It was the second time Rapinoe has scored an Olimpico, as goals from corners are known: She also had one in the semifinals of the 2012 Olympics against Canada.

Sam Kerr pulled the Australians even with a goal in the 17th minute that got past U.S. goalkeeper Adrianna Franch.

Franch got her first start in a major tournament in place of Alyssa Naeher, who injured her right knee in the U.S. team's semifinal loss to Canada.

Just 27, Kerr became the all-time leading scorer for the Australians with 48 goals. She led all scorers remaining in the tournament with six goals.

Rapinoe's second goal came on a stunning volley in the 21st, and it became obvious that the Australians were missing defender Ellie Carpenter, who was handed a red card late in the Matildas' 1-0 semifinal loss to Sweden.

Lloyd made it 3-1 in first-half stoppage time when her left-footed shot got past Australia goalkeeper Teagan Micah. She added another on a break in the 51st minute, giving her a U.S. record 10 career Olympic goals. She is the first American woman to score in four Olympics.

Lloyd made her 312th appearance for the national team in the match, passing Christie Rampone for second on the all-time list. Kristine Lilly leads the career appearances list with 354.

Lloyd is 39 and likely playing in her last major tournament. When she was replaced in the 81st minute, teammates ran over to offer handshakes and high-fives, and the bench gave her a standing ovation.

Lloyd said afterward that she had not made a decision about her future just yet.

Caitlin Foord kept the Australians in the game with a goal in the 54th minute before Emily Gielnik scored to narrow it further in the 90th, but ultimately the Matildas couldn't make up the difference.

Kerr sat alone on the field for a long time after the final whistle.

"Being so close and really taking it to one of the top teams in the world, and out-playing them at times and getting so close to scoring in certain moments, it just feels like we were right there and it's been snatched from us," Australia defender Steph Catley said. "It's definitely tough to take."

The Australians had already met the United States at the Tokyo Olympics, holding the Americans to a scoreless draw in the final game of the group stage. Australia was also the only team in the group to score on the Swedes, who are headed for the gold medal match Friday against Canada.

The U.S. team's tournament-opening loss to Sweden snapped a 44-match unbeaten streak. After a rebound victory over New Zealand came the scoreless draw with Australia. In the quarterfinals, the U.S. got past the Netherlands inn a penalty shootout.

But they were thwarted in a quest to become the first team to win an Olympics after a World Cup title by their Canadian rivals. Jessie Fleming scored on a penalty kick in the 74th minute for the game's lone goal.

The players said Thursday they had a team meeting after the loss to Canada.

"I felt like we just had a good vibe going into the game. We've done, as you can imagine, lots of talking and meetings and hashing it all out and doing the autopsy," Rapinoe said. "But I felt like we just got to a good place."

The United States has reached the gold medal match at the Olympics five times. The Americans have four gold medals, more than any other team since women's soccer became an Olympic sport in 1996.

But it is the second Olympics they have failed to reach the gold medal match. They were beaten by Sweden in the quarterfinals five years ago in Brazil.

Belarus runner used quick thinking to avoid being sent home

(AP) — A Belarusian Olympic sprinter who feared reprisals back home after publicly criticizing her coaches at the Tokyo Games used quick thinking to get help, using her phone to translate a plea and show it to Japanese police as she tried to avoid being forced onto a plane.

Krystsina Tsimanouskaya described on Thursday a dramatic series of events at the Olympics that led her to decide not to return to Belarus, where an authoritarian government has relentlessly pursued its critics. She fled instead to Poland, arriving Wednesday.

After posting a message on social media that criticized the way her team was being managed, Tsimanouskaya said she was told to pack her bags. Team officials told her to say she was injured and had to go home early.

On her way to the airport, she spoke briefly to her grandmother, who explained that there was a massive backlash against her in the media in Belarus, including reports that she was mentally ill. Her grandmother, she said, advised her not to return. Her parents suggested she could go to Poland.

At the airport, she sought help from police, using Google translate to convey her plea in Japanese. At first, they didn't understand, and a Belarusian official asked what was going on. She claimed she forgot something at the Olympic village and needed to return. Police eventually took her away from the Belarusian officials.

As the drama unfolded, European countries offered to help her, and the runner ended up at the Polish embassy, where she received a humanitarian visa. Many of Belarus' activists have fled to Poland to avoid a brutal crackdown on dissent by President Alexander Lukashenko's government.

The European Union's foreign policy chief, Josep Borrell, tweeted to say he was "Reassured to see that the athlete Krystsina #Tsimanouskaya arrived safe in Poland." He deplored, however, that "One more proud Belarusian has however been forced to flee her own country due to the actions of the Lukashenko regime and Olympic truce been violated."

"It was the whole world, and these people make me much stronger," she said. She added that she feels safe now.

She also had a message for her fellow Belarusians.

"I want to tell all Belarusians not to be afraid and, if they're under pressure, speak out," said the runner, who spoke in both English and Russian at the news conference.

Still, she expressed concern for the safety of her family back home. Her husband, Arseni Zdanevich, fled Belarus this week shortly after his wife said she would not be returning. Poland has also granted him a visa.
